# NEWSLETTER

**July 16-31, 2006**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **July 16-31, 2006**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Senior Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## MEMORANDUM

### Governor's Office of Planning and Research State Clearinghouse

**Date:** December 5, 2003

**To:** All CEQA Lead Agencies

**From:** Terry Roberts, Director, State Clearinghouse

**Re:** Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov).

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE  
1999 through 2005**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<b><u>Documents Received on Monday, July 17, 2006</u></b>			
2005072139	<p>Metro Air Park Neighborhood Electric Distribution Project Sacramento Municipal Utility District Sacramento--Sacramento</p> <p>Construct and operate two 69-kV neighborhood substations that would step down 69kV voltage to 12kV, consisting of (1) the proposed Lot 6 substation on the east side of Power Line Road just south of the existing Central Main Canal approximately 1,200 feet south of Elverta Road. The proposed Lot 44 substation would be located on the west side of the planned Lone Tree Road just south of the Central Main Canal, approximately 4,300 feet south of Elverta Road.</p> <p>The project also includes the following subtransmission line components: (1) Segment 1: a single circuit 69 kV overhead subtransmission line located on the south side of Elverta Road between Power Line Road and the planned Lone Tree Road is proposed to be upgraded to a double circuit 69 kV overhead line; (2) Segment 2: a single circuit 69 kV overhead subtransmission line located on the east side of Power Line Road between Elverta Road and Elkhorn Boulevard is proposed to be upgraded to a double circuit 69 kV overhead line; and (3) Segment 3, Option Elverta Road and Elkhorn Boulevard, or Segment 3 Option 2: would be installed along parcel boundaries ranging from 600 to 900 feet west of the planned Lone Tree Road between Elverta Road and Elkhorn Boulevard.</p>	<b>FIN</b>	
2006071077	<p>Atwater South Remainder Vesting Tentative Map Atwater, City of Atwater--Merced</p> <p>The project site is approximately 14.5 acres located in the City of Atwater. The proposed project includes development of 54 lots on 12.3 acres (an average lot size of 6,350 square feet) plus a 2.2 acre park and open space areas located on the west side of the development which is bordered by Canal Creek. The proposed project includes the extension of water, storm drain and sewer lines 260 feet east from their current point of terminus west of Canal Creek.</p>	<b>MND</b>	08/15/2006
2006071078	<p>Bioaugmentation for Enhanced In-Situ Bioremediation - Former Reyes Clarifier Vicinity, Cal-Style Furniture Manufacturing Company Regional Water Quality Control Board, Region 4 (Los Angeles) Compton--Los Angeles</p> <p>Under the oversight of the Regional Board, Masco Corporation/Cal-Style Manufacturing (Masco) is investigating and remediating volatile organic compounds (VOCs) impacted groundwater at the Former Reyes Clarifier Vicinity. Masco proposes to implement enhanced in-situ bioremediation (EISB) with bioaugmentation technologies to remediate the source areas. These technologies involve addition of selected amendments (amendments specified in the General WDR Permit package, and in some areas using a non-pathogenic, naturally derived (i.e., not genetically engineered), chlorinated ethene degrading consortium, referred to as KB-1 containing a Dehalococcoides ethenogenes culture) to create a reducing condition in groundwater to facilitate reductive dechlorination of chlorinated volatile organic compounds.</p>	<b>MND</b>	08/16/2006

Documents Received during the Period: 07/16/2006 - 07/31/2006

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, July 17, 2006</u></b>			
2006072070	Project 06-029 (Michel) Sutter County --Sutter A request for Tentative Parcel Map approval to merge and re-subdivide 41.9 acres into a 1.9 and two 20-acre parcels where a 2.21- and 39.77-acre parcels exist today.	<b>MND</b>	08/15/2006
2006072072	Foss Creek Pathway Healdsburg, City of Healdsburg--Sonoma Construction of 4.1-mile long Class 1 paved bicycle and pedestrian path paralleling Foss Creek and/or Northwestern Pacific Railroad.	<b>MND</b>	08/15/2006
2006072074	Proposed K-8 School Site, 4251 Orwood Road, Knightsen Knightsen Elementary School District --Contra Costa The Knightsen Elementary School District has an immediate need for an elementary school in the District. It is anticipated that the proposed school would likely have an eventual student enrollment of about 650-700 students.	<b>MND</b>	08/15/2006
1999091142	IID/SDCWA Water Conservation and Transfer Project Imperial Irrigation District Imperial Beach, El Centro, Brawley--Riverside, Imperial, San Diego The purpose of the Supplement is to evaluate additions and changes to the IID Water Conservation and Transfer project subsequent to certification of the Final EIR/EIS by IID and approval of the Final EIR/EIS by federal agencies. As part of the Project, IID prepared a proposal Habitat Conservation Plan (HCP) to address the impacts of the project on biological resources in the Imperial Valley and Salton Sea area. The project changes to be evaluated in the Supplement include changes made to the Draft HCP in the course of processing approval of the HCP by the USFWS pursuant to section 10 of the Federal Endangered Species Act (FESA) and by the California Department of Fish and Game (CDFG) pursuant to the Natural Communities Conservation Planning Act (NCCP Act).	<b>NOP</b>	08/15/2006
2004091106	Atwater Ranch Atwater, City of Atwater--Merced The project consists of a Vesting Tentative Subdivision Map, Development Agreement, an Annexation and a Specific Plan on property that is bounded by Atwater Jordan Road to the north, White Crane Road to the south, Applegate Road to the west and Swan Road to the east. 393.3 acres in total, all located on parcels: 056-093-04, 056-093-05, 056-093-06.	<b>NOP</b>	08/15/2006
2005011094	South Court Facility Orange County --Orange The proposed project consists of the construction of a new three-story courthouse with basement and a new two-story city hall building, library expansion, a potential new office building, and the demolition of the existing public defender's and district attorney's buildings. The courthouse would include 14 new courtrooms offices, courtyard/plazas and pedestrian pathways, a payment window, court support and jury facilities, a secure sallyport for transfer of custody, and a secured parking area for judges. Development of the new courthouse would add a total of approximately 207,300 building gross square feet (BGSF) to the existing structure, for a total of approximately 240,600 BGSF. The new city hall would be located	<b>NOP</b>	08/15/2006

<b><u>Documents Received on Monday, July 17, 2006</u></b>			
	near the southern project boundary and contain approximately 40,000 gross square feet within a two-story structure. The proposed library expansion would result in an additional 3,050 square feet of floor space and would occur adjacent to the existing library along Crown Valley Parkway. The potential 61,000-square foot office building would be located at the northeast corner of the project site at the intersection of Pacific Island Drive and Alicia Parkway. The proposed project would also include a surface parking lot with approximately 990 parking spaces for the new courthouse building.		
2006072077	Capitol Station 65 Sacramento, City of Sacramento--Sacramento The proposed project would include approximately 2,982 dwelling units (single family, apartments, and condominium units) and approximately 145,524 gross square feet of neighborhood-serving retail. The retail uses would be located in the ground floor of residential buildings and would include restaurants and services such as hair salons, dry cleaning, small grocery stores, flower shops, and office-type services. Small professional offices may also be included. Buildings on-site would range from 15 story high-rise mixed-use (maximum of 150 foot height), mid-rise mixed use (up to five stories), mixed use four-story lofts and home-office use, and three-story town homes. The proposed project also includes an option to develop approximately 809,200 gross square feet of office use (instead of residential) on the proposed lots fronting Richards Boulevard. The two development options are referred to as the Residential/Retail Development Option and the Residential/Retail/Office Development Option.	<b>NOP</b>	08/15/2006
2006071076	Well 5636-2 Redrill Coachella Valley Water District --Riverside The Well 5636-2 Re-Drill project includes drilling, casing, testing, and developing a 1,500 gallon-per-minute (gpm) domestic water well including the installation of a 250-horsepower motor, a 1,500 gpm pump, and other aboveground and underground appurtenances required to connect the well and pumping plan to the domestic water distribution system. Well 5636-2 will be located on the same half-acre site as the existing Well 5636-1. Well 5636-1 is no longer in service because of increasing amounts of sand in the water produced by the well. The purpose of the Well 5636-2 Re-Drill project is to replace Well 5636-1 and provide domestic water service to the Valley Pressure Zone which includes the Indian Wells area.	<b>Neg</b>	08/15/2006
2006072071	Cancellation of Land Conservation Contract #1-14 and Zone Change #2006-001 Glenn County Public Works and Development Services Agency Willows--Glenn San Francisco Region Properties, Inc. has applied for the partial cancellation of Land Conservation Contract (Williamson Act contract) #1-14 and Zone Change 2006-001 on Assessor's Parcel Numbers 018-050-002 (210.65 acres), 018-050-003 (79.72 acres), and 021-070-013 (023.93) acres from "AP-80" (Agricultural Preserve, 80 acre minimum) to "RPM" (Recreation and Planned Motorsport Zone).	<b>Neg</b>	08/15/2006

2003022122	Siller Ranch (EIAQ-3735) Placer County Planning Department --Placer The project involves building 653 residential units, two golf courses and the other recreation facilities on 2,177 acres in the Martis Valley.	<b>NOD</b>	
2004041102	Hacienda Vieja Santa Barbara County Goleta--Santa Barbara The Operator proposes to alter the streambed to remove mostly non-native species from a wetland, and replace them with natives. The project includes the construction of 4 homes, requiring two bio-swales, and 100 foot buffer from the wetlands, with a complete restoration of the wetlands, which are presently vegetated with invasive species. Temporary impacts will be 0.71 acres.	<b>NOD</b>	
2004101091	Installation of Three Water Wells Hesperia, City of Hesperia--San Bernardino This is to advise that the California Department of Health Services has issued a water supply permit number 05-13-06PA-019 for the project.	<b>NOD</b>	
2006021066	2006 Amendment to the Redevelopment Plans for the Upland Community Redevelopment Project (A Merged Project), and the Town Center and Magnolia Redevelopment Proj Upland Community Redevelopment Agency Upland--San Bernardino The 2006 Amendment was adopted for the dual purposes of: (1) adding new territory to the area included within the existing Magnolia Redevelopment Project; and (2) merging the Magnolia Project, as amended, with the Town Center and Upland Community Redevelopment Projects into one merged redevelopment project to better enable a variety of possible redevelopment activities, both within the Added Territory by the 2006 Amendment, as well as in the Existing Projects. Implemented in accordance with the California Community Redevelopment Law (Health and Safety Code Section 33000, et seq.), such activities are designed to lessen or eliminate documented blight conditions in the Added Territory specifically, and the Existing Projects. To help achieve these objectives, Agency redevelopment activities may include, but are not limited to: provision of affordable housing for qualified persons and families; construction and/or rehabilitation of structures, infrastructure, and community facilities; and economic development. While not identified as specific projects at this time, these activities, and/or similar ones, are possible activities that may be undertaken within the Added Territory and continued within the Existing Projects over the effective lives of the respective redevelopment plans.	<b>NOD</b>	
2006021150	Artesia Corridor Specific Plan Project Gardena, City of Gardena--Los Angeles The project site is 44.1 acres in size and currently contains 275,885 square feet of primarily commercial and industrial uses on the site, and three single-family residences. The project site is currently zoned for General Commercial (C-3) and General Industrial (M-2) uses. The City's General Plan designates the project site for commercial uses.  The proposed Specific Plan would allow for the development of 375,000 square	<b>NOD</b>

2006078151	<p>Mill Creek Campground Well Addition Parks and Recreation, Department of --Del Norte</p> <p>Revised location to drill a test hole to develop and connect a well for Mill Creek Campground at Del Norte Coast Redwoods State Park. The new proposed well site is completely within the developed area of Campsite #26, in Mill Creek Campground. The well will replace the infiltration gallery that currently supplies water from directly below the east fork of Mill Creek. Based on the results of drilling, the well will be developed and connected to the present water system serving the unit's public facilities. Ground disturbance will involve the drilling of the well and the associated temporary surface disturbance where the drill rig sits. A silt-fenced directional flume will direct drilling slurry to a straw bale containment basin to prevent it from moving off site. Upon completion, all resulting material will be removed to a disposal site away from all drainage potential. Drilling will be monitored by a DPR-qualified archaeologist to ensure protection of any potential cultural resources encountered. This project will beneficially affect surface water and the flora and fauna dependent upon it.</p>	NOE

	Wastewater Treatment Plant, and construction of the Lakeshore Sewer and Regional Lift Station. Water distribution system improvements include upgrades to pipelines, pressure regulating valves, booster pump stations, storage reservoirs, hydrants, and a new arsenic removal system for two EVMWD wells.		
2006071081	St. Joseph Street Well Project Los Alamos Community Services District --Santa Barbara Project consists of the installation of a new well and ancillary facilities to supplement existing wells that provide potable water from the CSD to the community of Los Alamos.	<b>MND</b>	08/16/2006
2006071084	State Lease 421-1 Caisson Wall Repair Project 06-MND-01 / 05-132-DP Goleta, City of Goleta--Santa Barbara Venoco Inc. has applied for a Final Development Plan to validate emergency repair work performed on a pier structure within their State Lease 421 ("SL 421") after the outer wall of pier 421-1 failed during a winter storm, exposing the inner caisson wall to potential storm damage. The City of Goleta issued an Emergency Permit (04-EMP-001) on August 24, 2004 which authorized a repair project to remove the fallen wall and replace a portion of the old caisson wall with a new wall. Venoco installed a new wall face on the ocean (south) side of the caisson, with a small return on the adjacent sides. Venoco also removed fallen wall debris from the beach.	<b>MND</b>	08/16/2006
2006072080	Eades Rezone, General Plan Amendment, Rezone and Parcel Map Waiver-GPA/RZ/PMW2006-07 Modoc County --Modoc This project involves a General Plan Amendment, Rezone and Parcel Map Waiver. The General Plan Amendment is requested in order to change the land use designation from Agriculture Exclusive to Agriculture General and a Rezone to change the project area from Unclassified to Agriculture General zoning. The proposed Parcel Map Waiver application has been submitted in order to divide 158 acres into two resulting parcels of 80 acres and 78 acres. The resulting parcel #1 (78 acres), contains an existing residence. The project is located directly adjacent to Modoc County Road 90, Gouger Neck Road, near Lookout. The surrounding uses include agriculture and rural residential.	<b>MND</b>	08/16/2006
2006072081	Carmax Auction Facility, Roseville (PMPA T2062237) Placer County Planning Department Auburn--Placer Proposed to construct a 2,300 square foot facility for holding automobile auctions. Parking and temporary storage will be provided.	<b>MND</b>	08/16/2006
2006072082	Layton Residence Mill Valley, City of Mill Valley--Marin The project involves the demolition of an approximate 2,400 sq. ft. single family residence on an 8,280 sq. ft. lot and replacement with a two story 2,803 sq. ft. residence with a 19' tall detached two story accessory structure consisting of a 220 sq. ft. garage and 482 sq. ft. second residential unit. The rear yard is also proposed to be developed with a 16' x 24' swimming pool. An archaeological resource survey was prepared by the firm of Thomas M. Origer and concludes that no significant prehistoric or historic-period archaeological resources were found.	<b>MND</b>	08/16/2006

2006072084	Lode Star: TTM 36-240, UPA 2006-08, DZA 2006-02 Mammoth Lakes, City of Mammoth Lakes--Mono The project proposes to construct 45 Residential Condominium units for quarter share fractional ownership including 2 1-bedroom units, 28 2-bedroom units, and 15 3-bedroom units, two underground parking levels with 103 spaces, and common interior recreation space. The application includes a proposed amendment to the Lodestar Master Plan to allow a for 17 feet increase in building height from the current maximum allowed 47 feet, and a reduction in the front yard setback from 100 feet to 30 feet, and 10' side yard setbacks on the north and south sides of the property.	<b>MND</b>	08/16/2006
2006072087	Woodrose Way Pipeline Replacement Nevada County Irrigation District Grass Valley--Nevada This project consists of the replacement of treated water pipelines along Woodrose Way. Tim Burr Lane, Hollydale Road, and Star Drive, east of Brunswick Road, south of Grass Valley. The purpose of the project is to improve water system reliability in this area by eliminating leaks and water quality issues.	<b>MND</b>	08/16/2006
2006071079	Silva Property Specific Plan EIR King City King City--Monterey The project to be evaluated in the EIR is the adoption of the Silva Property Specific Plan, and related approvals. The Specific Plan was submitted to King City by Dahlin Group on the behalf of Silva Farms, on October 25, 2005, and a revised Specific Plan was submitted on June 7, 2006. The Project proposes to convert a largely agricultural land area into a mixed use urban neighborhood. Proposed land uses include residential dwelling units in a variety of housing types, along with commercial, recreational and open space amenities. Implementation of the Specific Plan would convert the entire project site to a land use designation of Planned Development and a zone of PD (Planned Development), with the Specific Plan controlling the form and location of development on the site.	<b>NOP</b>	08/16/2006
2006071080	99 Pasadena Avenue - Picture Arts Building South Pasadena, City of South Pasadena--Los Angeles The project site currently contains a 15,700 square foot, one-story office building, a single family home, an asphalt surface parking lot with 50 spaces, a 13,000 square foot portion of the Marmion Way proposed for vacation, and an irregularly shaped public right of way located between Arroyo Verde Road and Pasadena Avenue, also proposed for vacation. The applicant (Picture Arts, Inc.) proposes to expand the existing office building by adding 20,650 square feet of office space and 134 parking spaces. The proposed office building would be attached to the existing office structure. The additional parking would include 32 spaces on the lower level of the new office building, 88 spaces within a two-level parking garage proposed on the northeast portion of the site. The proposed project includes a General Plan Amendment to change the City's General Plan Land Use Map by designating a portion of Marmion Way and the irregularly shaped public right of way, proposed for vacation, as Business Park, Research and Development and Light Manufacturing and a Zone Change to classify these same areas as Business Park (BP) consistent with the proposed General Plan land use designation.	<b>NOP</b>	08/16/2006

<b><u>Documents Received on Tuesday, July 18, 2006</u></b>			
2006072085	New Irvington Tunnel Project San Francisco, City and County of San Francisco--San Francisco The proposed New Irvington Tunnel Project (the Project) includes construction of a new Irvington Tunnel in the vicinity of the existing Irvington Tunnel. The new tunnel would be approximately 18,200 feet long and 10 feet in diameter, parallel to, and just south of, the existing tunnel. The project also includes construction of new portals at the east and west ends of the proposed new tunnel with connections for the existing and proposed Alameda Siphons on the east and for the existing and proposed Bay Division Pipelines on the west. The Project would meet the seismic reliability goal and the delivery and drought reliability goals of the SFPUC regional Water System Improvement Program (WSIP) by allowing the existing tunnel to be taken out of service for maintenance while continuing to meet the water supply needs of SFPUC customers through 2030.	<b>NOP</b>	08/16/2006
2006072086	City of Sonora General Plan 2020 Sonora, City of Sonora--Tuolumne Update of the 1984-1986 City of Sonora General Plan with a 2020 planning horizon. Includes Land Use, Circulation, Housing (state-certified March, 2004), Conservation & Open Space, Noise, Safety, Public Facilities & Services, Air Quality, Cultural Resources, Economics, Community Identify and Recreation Elements. Includes proposals for new Land Use designations and Sphere of Influence.	<b>NOP</b>	08/16/2006
2000122079	Merging of Redevelopment Plan Areas, City of Hercules Hercules, City of Hercules--Contra Costa The Dynamite Redevelopment Project Area was originally adopted on November 30, 1983, and was amended on two separate occasions: April 26, 1994, and February 27, 1996. Project Area No. 2 was originally adopted on April 13, 1999. The two project areas were merged in 2001. The purpose of the 2006 Amendment is to confirm that the eminent domain authority in the Dynamite Project Area which was included in the original Dynamite Redevelopment Plan still exists and the 2006 Amendment will extend this authority for a period of 12 years from adoption of the 2006 Amendment.	<b>Neg</b>	
2006071082	Conditional Use Permit 2005-257 Big Bear Lake, City of Big Bear Lake--San Bernardino The project is the demolition of two existing structures and construction of a new 12,581 square foot Walgreens retail pharmacy with a single-lane drive-thru pick up window for prescriptions on 1.54 acre site. Site improvements include the installation of approximately 50,000 square feet of paving, 58 parking spaces, and approximately 15,400 square feet of landscaping.	<b>Neg</b>	08/16/2006
2006071083	Nahabedian Section 22 Project Division of Oil, Gas, and Geothermal Resources --Kern Proposes to drill, test, and possibly produce up to 5 exploratory oil and gas wells.	<b>Neg</b>	08/16/2006

2006012039	<p>Ardenwood Land Use Plan Amendment East Bay Regional Parks District Fremont--Alameda</p> <p>The East Bay Regional Park District has prepared an amendment to the Ardenwood Historic Farm Land Use Plan. The Land Use Plan Amendment (LUPA) guides the management of natural resources and facility and infrastructure improvements at this 208-acre park that interprets historical farming life and techniques in California.</p> <p>The Ardenwood Historic Farm LUPA is a long-range plan containing recommendations intended to protect natural and cultural resources and to improve visitor opportunities and maintenance and operations of the park. Key recommendations of the LUPA include: preserving existing farm fields in agricultural use and maintaining eucalyptus woods and walnut orchards; retaining the overall historic character and form of the park's core area; redesigning the park entry with a pedestrian plaza containing a separate entrance and exit; restoring historic buildings to public interpretive exhibits; constructing a building for indoor group interpretive programming; developing a rail shop complex, in phases, on the east side of the park; constructing a shade structure; upgrading electrical service to meet current and future needs; upgrading and extending electrical, water and sewer systems to serve proposed facilities; installing additional restrooms at the park entrance; and developing a park service yard and barns to serve park operations.</p>	<b>NOD</b>	
2006042102	<p>Water Quality Enhancement Project Alameda County Water District Fremont--Alameda</p> <p>The project involves new construction of a new single-story utility building constructed of standard building materials. The area of the building will be approximately 700 sq. ft. The project will also include minor site grading adjustments.</p>	<b>NOD</b>	
2006051080	<p>Kettleman City Rehabilitation Project 06-Kin-41 (PM 11.5/20.1) Caltrans #6 Kettleman--Kings</p> <p>The California Department of Transportation (Caltrans) proposes to widen and rehabilitate a portion of State Route 41 from Quail Avenue to Utica Avenue (from post miles 11.5 to 20.1) in Kings County, California. The proposed work would widen the existing shoulder, rehabilitate the existing pavement, place new metal-beam guardrails or reconstruct existing ones, resurface Route 41/15 on-ramps and off-ramps with rubberized asphalt concrete, use Portland cement Concrete at the off-ramp terminus, replace asphalt concrete dike, and improve drainage.</p>	<b>NOD</b>	
2006052063	<p>Mission Road Homes Fremont, City of Fremont--Alameda</p> <p>The proposed project is a request for a General Plan Amendment to change the land use designation of the project site from Office Commercial to Low Density Residential, 3-5 units per acre and Hill Face Open Space. The project could result in the future development of 32 single family lots, construction of a new public street and associated site, landscape and drainage improvements.</p>	<b>NOD</b>

The project will include a septic tank connected to an elevated mound leach area construction on-site to handle clarified sewage from the septic tank.	<b>NOE</b>	
2006078161	California Department of Transportation, Devil's Slide Tunnel Project, Issuance of NPDES Permit Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Unincorporated--San Mateo Waste Discharge Requirements permit the California Department of Transportation to discharge a maximum of 1.15 million gallons per day of treated wastewater to the Pacific Ocean.	<b>NOE</b>	
2006078162	Altamont Commuter Express Project San Joaquin Regional Rail Commission --Alameda The proposed project is the installation of underground electrical conduit within UPRR right-of-way to provide electricity to the railroad signals necessary for the establishment of passenger train service along this portion of UPRR track. The project would begin approximately 100 feet west of the intersection of Dyer Road and the UPRR ROW and extend approximately 4,500 feet in a northeasterly direction entirely within the ROW. The electrical conduit would be directionally drilled (bored) under Dyer Road. West of Dyer Road, the conduit would be direct buried (installed with a trencher and backfilled) within the UPRR ROW.  The UPRR ROW is situated upslope of an adjacent drainage. To protect the drainage, construction is proposed for the dry season and includes the installation of straw wattles on the downstream side of the UPRR ROW for the purpose of capturing and filtering sediment laden runoff that would result from an unexpected rainfall event.	<b>NOE</b>

2006078163	<p>Easement to the San Diego Metropolitan Transit Development Board Parks and Recreation, Department of</p> <p>--San Diego</p> <p>Issue a permanent public transit facilities (light rail &amp; bus) easement to the San Diego Metropolitan Transit Development Board (MTDB) to allow the MTDB and their contractors access across Old Town San Diego State Historic Park property for the purpose of providing a public transportation light rail extension alignment. The easement will be approximately 48,292 square feet or 1.11 acres. MTDB will notify DPR at least one week prior to performing work, including routine maintenance, within the easement boundaries. Advance notice is not required when responding to an emergency; however, DPR will be notified as soon as feasible after transit personnel arrive at the site. All work conducted within the boundaries of the easement, including routine maintenance will comply with all State and Federal environmental laws, including but not limited to the Endangered Species Act, CEQA, and Section 5024 of the Public Resources Code, with regard to work conducted within the easement area. MTDB representatives will consult with DPR resource specialists to determine the appropriate level of avoidance/mitigation necessary to protect the resource(s) during future work within the easement. All ground-disturbing work within the proposed easement will be monitored by an archaeologist meeting the Secretary of the Interior's Qualification Standards for historic and prehistoric archaeology. If potentially significant resources are unearthed, work in the immediate area of the find will be temporarily halted or diverted until the site monitor consults with a DPR archaeologist, and identification and proper treatment are determined and implemented. MTDB will be responsible for providing all qualified monitors. All finds will become the property of DPR; ownership of any Native American artifacts will be determined on a case-by-case basis, in consultation with the appropriate tribal representative(s) and/or the Native American Heritage Commission. Archaeological consultants working within the boundaries of the easement or on adjoining State Park property will obtain a permit from the DPR Cultural Resource Division prior to commencing any investigations on the property. This easement will provide legal access and use of this property to MTDB, while protecting natural resources.</p>	<b>NOE</b>

	<p>jurisdiction of which 1.57 acres consist of vegetated riparian habitat. the 753-acre site is currently a partially developed area that supports a mosaic of vegetation types including coastal sage scrub, native grassland, non-native grassland, agriculture, southern willow riparian forest and mulefat scrub. PA 18 was planned to be consistent with the SAMP analytical framework whereby, the SAMP/MSAA tenets and functional integrity analysis were used to shape the development footprint (e.g. avoidance of aquatic resource integrity areas). Proposed mitigation is consistent with the SAMP/MSAA mitigation policies and the Strategic Mitigation Plan.</p> <p>The Operator shall mitigate 1.72 acres of Permanent impacts to native vegetation at a compensation to impact ratio of 2:1, for a total mitigation obligation of 3.50 acre; and shall consist of on-site creation, restoration and enhancement of 0.75 acre of mulefat scrub and 2.75 acres of southern willow scrub at former Laguna Reservoir which is approximately 2,400 feet from San Diego Creek. The Operator shall contribute sufficient funds to brown headed cow-bird trapping program for the 3.50 acres of mitigation site within former Laguna Reservoir. In addition, to protect the mitigation site from domestic animal and other predators, the Operator shall place appropriate fencing and a buffer zone of riparian vegetation with signage around the perimeter of the mitigation area. Residents shall not have access to mitigation area. No activities shall be permitted within the mitigation site except habitat restoration, and the removal of exotic species, trash, and debris.</p>		
2006011099	<p>Round Valley Meadow and Stream Headcut Repair and Elevation Restoration Parks and Recreation, Department of Palm Springs--Riverside</p> <p>The California Department of Fish and Game is issuing an Agreement regarding Proposed Stream or Lake Alteration to the project applicant. The project consists of the reparation of Round Valley Meadow in San Jacinto State Park, where excess run-off over several years has caused incising and the creation of a channel. This wet meadow whose vegetation normally depends on ephemeral flows. The applicant proposes to fill the degraded, entrenched and eroded stream channel with fill borrowed from nearby upland and depositional sites. The applicant will then compact the fill material during placement and add top soil and re-vegetate it with on-site live trees and meadow plants. The borrowed area will also be re-vegetated. Dead trees will be used to recruit logs for grade control structures. Work will be performed by Civilian Conservation Corps, members and the applicant's staff using hand tools with mechanized equipment delivered to the project site by helicopter lift. No nesting cavities were found on the site. Less than 0.1 acre of the eroded site will be affected and only 0.65 acre of upland site.</p>	<b>NOD</b>	
2006049058	<p>Pierson Boulevard Sewer Interceptor Project Mission Springs Water District --Riverside</p> <p>The Department is issuing a Lake and Streambed Alteration Agreement for the project proponent who proposes to connect two existing reservoirs and allow for the unrestricted transfer of potable water. In the southeastern portion of the project, a +/- 300 foot segment of a 16-inch diameter pipe will cross under Long Canyon Wash. A total of approximately 0.061 acres of potential CDFG jurisdiction exists within the proposed construction area, none of which was identified as riparian habitat. Numerous types of construction equipment will be required, including an excavator, loader, backhoe, dozer, compactor, water truck, and construction personnel vehicles. The top six inches of topsoil will be excavated</p>	<b>NOD</b>

2006078173	Transfer of Coverage to Placer County APN 112-270-058 (Barrow) Tahoe Conservancy Unincorporated--Placer Project consists of the sale and transfer of 2,026 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	<b>NOE</b>	
2006078174	Adelante High School Classroom - Admin Replacement Roseville Joint Union High School District Roseville--Placer Replace existing classroom and administration building with new buildings.	<b>NOE</b>	
2006078175	Community Care Licensing Relocation Project Social Services, Department of Eureka--Humboldt To relocate the Community Care Licensing office from 231 2nd Street, Eureka to 1330 Bayshore Way, Eureka, to accommodate a total of 5 staff.	<b>NOE</b>	
2006078176	Streambed Alteration Agreement (1600-2006-0027-R5) Regarding the San Dimas Spreading Grounds Restoration Project Fish & Game #5 San Dimas--Los Angeles The Operator proposes to alter the streambed, banks and channel by restoring the spreading grounds basins, earthen channel, and the culverts. The spreading grounds basins, earthen channel and the culverts underneath Romola Avenue were either damaged or washed out by spillway flows from the upstream Puddingstone Diversion Dam during the January 2005 Storm Disaster, including the portion of San Dimas Wash that passes through the basins. The basin levees, earthen channel, and culverts under Romola Avenue need to be repaired and restored. The project will restore water conservation efforts of approximately 1,600 acre-feet per year, emergency (e.g., police, fire) vehicle access from San Dimas Canyon Road to the neighborhood adjacent to the spreading grounds facility, and prevent potential erosion of the channel behind residential property located below the spillway of Puddingstone Diversion Dam. The restoration project at San Dimas Canyon Spreading Grounds will occur in two stages. During the first stage, the four 24-inch CMP culverts beneath Romola Avenue will be extended and the wash regarded to accommodate the passage of low flow beneath Romola Avenue during the 2005-06 storm season. During the second stage of the facility restoration, anticipated to begin in 2007 or 2008, the culverts will be replaced with the same size or larger culverts to ensure the passage of flow. Also, earth-moving equipment will be used within San Dimas Wash to repair the basin levees and earthen channel, to reconfigure the damaged basins, and to create channels to convey water to the basins. Regarding will result in one channel to direct major storm flow and spillway flow and one to two low-flow (less than 50 cfs) channels to convey water to the spreading basins. It is expected that large flows (greater than 2,000 cfs) will wash out the spreading basins. To increase spreading efficiency and reduce maintenance efforts, the basins will be reconfigured within the existing footprint resulting in fewer, larger basins. The exact configuration and number of basins and channels will be determined during the final design. Native material on site and from the upstream San Dimas Sediment Placement Site or Dalton Sediment Placement Site will be used to repair the basin levees.	<b>NOE</b>

2004011019	Oaks Mall Renovation / Expansion Thousand Oaks, City of Thousand Oaks--Ventura To consider approval of Phase 1 and 2 of a project that would renovate and expand the Oaks Mall adding a total of 230,402 square feet of new leasable building area and increase the number of available parking on-site by 555 spaces.	<b>EIR</b>	09/05/2006
2006061070	El Centro de Huntington Park Huntington Park, City of Huntington Park--Los Angeles The project proposes to redevelop the approximately 29-acre site from industrial uses to commercial uses. Implementation of the proposed project will require the purchase and demolition of portions of approximately 50 parcels, currently under ownership by 28 separate owners. Approximately 595,000 square feet of existing uses will be demolished as part of the proposed project.  The project site has been divided into two areas (A and B) for discussion purposes. Area A will be developed with one major retailer with gasoline sales (175,000 square feet), and one retail/restaurant pad of up to 25,000 square feet. Area B will be developed with up to two major retailers for a total of 240,000 square feet, and three retail/restaurant pads totaling 50,000 square feet. In total, the project proposes approximately 490,000 square feet of retail and restaurant uses.	<b>EIR</b>	09/05/2006
2006071092	Wastewater Treatment Plant and Collection System Master Plan Project Santa Nella County Water District --Merced The Santa Nella County Water District (SNCWD) proposes to construct a new wastewater treatment plant (WWTP), sewage collection system, and treated effluent disposal system. This new infrastructure would serve the development anticipated in the Santa Nella Community Specific Plan (CSP), as approved by the County of Merced. The proposed WWTP would be constructed on an approximately 23-acre site, and would include two effluent storage ponds, headworks facilities, an influent pump station, two oxidation ditches, three secondary clarifiers, three aerobic digesters, sludge drying facilities, an emergency detention pond, a 2,400 square foot administrative building, and a 5,000 square foot workshop and garage.	<b>MND</b>	08/18/2006
2006072091	North Coast Instream Flow Policy Substitute Environmental Document State Water Resources Control Board --Mendocino, Humboldt, Marin, Napa, Sonoma For purposes of CEQA, the proposed project is adoption and implementation of the North Coast Instream Flow Policy. The State Water Board must adopt a policy that provides through the State Water Board's administration of water rights for the maintenance of instream flows in North Coast streams. The policy is likely to address the State Water Board's administration of water right applications; small domestic use and livestock stockpond registrations; existing permits and licenses; and change petitions, including transfers, time extensions, and wastewater change petitions. In addition, the Division proposes to include an enforcement element as part of the policy that will govern water right enforcement actions in the coastal streams described above.	<b>NOP</b>	08/18/2006

2004012043	Lower American River - River Mile 10.0 Bank Protection Project American River Flood Control District Sacramento--Sacramento This project is to repair a segment of the Lower American River south bank levee located at river mile 10.0. The project is located just upstream of the Watt Avenue Bridge crossing of the Lower American River. Repairs would include placement of riprap along the toe of the levee up to the location of the existing brush boxes, placement of a cobble/soil layer along the berm, the removal of some dead vegetation, and revegetation of the project area. The repairs are required to eliminate erosion of the bank and ensure the levee is not damaged during high flow events.	<b>Neg</b>	08/08/2006
2006071090	Foothill Boulevard Phase III Medians and Street Widening from Grove to Vineyard Rancho Cucamonga, City of Rancho Cucamonga--San Bernardino Street widening, median installation, including beautification features to improve level of service and safety.	<b>Neg</b>	08/18/2006
2006071091	Zoomars - CUP 06-01, SPR 06-01, ZC 06-07 San Juan Capistrano, City of San Juan Capistrano--Orange The project proposes to expand an existing animal petting farm, including an increase in the number of animals and pens; a new pedestrian entry on Los Rios Street; modifications to existing structures; new pedestrian pathways through site; new signs; deviations from some setback and height standards for accessory structures; and a new four foot security fence in abandoned River Street that would eliminate vehicular access on the existing paved driveway from Adelanto Street to Los Rios Street, on approximately 1.37 acres of property. The site is listed on the City's Inventory of Historic and Cultural Landmarks (IHCL), with a portion of the site located within the Los Rios Street National Register Historic District.	<b>Neg</b>	08/18/2006
2006072096	Tentative Parcel Map 2006-0024 Yuba County --Yuba The project is a Tentative Parcel Map. The map proposes to subdivide the parcel, approximately 43.34 acres in size, to two lots. Both lots would be approximately 21.6 acres in size. The proposed use for both lots would be residential/agricultural.	<b>Neg</b>	08/21/2006
1999061086	Entering into a Wheeling Service Agreement with Fallbrook Public Utility District and the San Diego County Water Authority and Amending the San Diego County... Fallbrook Public Utility District --Riverside, San Diego FPUD has petitioned the State Water Board to increase the place of use authorized by Water Right Permit 11356 and modify or delete certain permit terms. The new water service area will include municipal, domestic and irrigation water users within the boundaries of the San Diego County Water Authority, including FPUD, 15 cities, 14 unincorporated areas, Camp Pendleton Military Reservation, and 17 water agencies. The proposed change would increase FPUD's boundaries to about the western half of San Diego County, including irrigation of a net 226,665 acres within a gross 920,472 acres. The petitioned permit term changes include deletion of permit conditions 7, 14, 15, 16, 17, and 18, and modification of condition 13.	<b>NOD</b>

	car and truck for distribution) on the project site. Project applicant, Pacific Rail Industries, proposed to expand their existing project site in the City of Colton, and relocate an existing metal shredding facility from Carson to the project site in Colton by amendment of their conditional use permit. In addition, the applicant proposed to increase the volume of materials being transloaded on the project site.		
2004039003	Fusari Mini Storage Monterey County --Monterey The proposed project would construct 57,400 square foot multi-building mini-storage facility and 800 square foot office building adjacent to the creek. Towards the northern portion of the property, a precast "conspan" bridge would be constructed over the creek, which divides the property. An excavator operated from the top of the back would remove material to create footings. The precast bridge structures would be placed on the footings to create the bridge. Two large oaks and three acacia trees would be removed to accommodate the bridge. Along the southern portion of the property, Prunedale North Road would be widened to create a pedestrian footpath along the left bank of the stream (looking downstream). Willow cuttings would be placed among the rock slope protection to hold the soil in place and provide riparian cover for the stream. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0034-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Mr. Gary Fusari.	<b>NOD</b>	
2004072049	Sunol and Niles Dam Removal Project San Francisco, City and County Planning Dept. --Alameda Removal of Sunol and Niles Dam on Alameda Creek in the Niles Canyon area of Alameda County. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0043-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Barbara Palacios, San Francisco Public Utilities Commission.	<b>NOD</b>	
2006042031	Wildcat Activity Center California State University, Chico Chico--Butte The proposed project will construct a 130,000 gsf recreation center at the southwest corner of the campus. The Wildcat Activity Center will encompass a vacated city street, a university parking lot, and a former railroad spur as shown on the campus master plan approved by the Board of Trustees in September 2005. Two existing university warehouses will be removed from the proposed site; the warehouse contents and services will be relocated to acquired warehouse space off campus. The project will also provide a 15,000 asf weight and fitness area, three multi-purpose studios for dance and aerobics, an indoor track, gymnasiums, a multi-activity court, a rock climbing wall, locker rooms for men and women, meeting and lounge space, administrative offices, and an outdoor aquatic area that includes a 25 meter by 25 foot heated pool and spa. The design intent of the facility is to meet LEED silver certification. The sustainable features of the project include the recycling of material during site demolition and the extensive use of recycled materials in the new facility. The Wildcat Activity Center will feature a high efficiency HVAC system and the roof will be engineered for the possible future installation of solar photovoltaic panels.	<b>NOD</b>

2006042123	<p>Edson Planned Unit Development / Minor Subdivision in the Coastal Zone Humboldt County Community Development Services --Humboldt</p> <p>This parcel map subdivision proposes reverting previously illegally subdivided parcels (known as APN 015-192-19, 32, and 99) to acreage and resubdividing by this tentative parcel map. APN 015-192-19 (+/- 1.34 ac) is currently developed with a +/- 2,300 sf residence and a +/- 1,500 sf detached garage/workshop. APN 092-192-32 (+/- 0.22 ac) is vacant. APN 015-192-33 (+/- 0.62 ac) is developed with a +/- 288 sf garage and a +/- 900 sf residence. The resubdivision will result in three parcels of +/- 1.01 ac / +/- 43,937 sf (Parcel 1), +/- 0.63 ac / +/- 27,470 sf (Parcel 2), and +/- 0.54 ac / +/- 23,555 sf (Parcel 3). The resubdivision will place the existing 2,300 sf residence and garage on proposed Parcel 1 and the existing 900 sf residence on proposed Parcel 2. A Planned Unit Development (PUD) is also requested to allow development in the buildable portion of the parcels. An exception is requested through the Land Use Division to allow a 20' wide access right-of-way and a less than road category 4 standard due to site constraints. A Coastal Development Permit for the subdivision and associated improvements; +/- 5 cy of cut to create an additional parking space for Parcel 2 with the excess soil to be placed for creation of the driveway at proposed Parcel 3. A Special Permit for the removal of 5 redwoods is also requested. A CDP from the State is also requested since the eastern portion of the property is within the California Coastal Commission's permit jurisdiction, a CDP application is simultaneously being processed by the CCC.</p>	<b>NOD</b>	
2006052118	<p>Diaz Final Map Subdivision/ Coastal Development Permit and Special Permit Humboldt County Community Development Services Eureka--Humboldt</p> <p>A Coastal Development Permit/Final Map Subdivision of 33.3 acres into thirteen (13) lots ranging in size from 1.25 to 4.51 acres. The subdivision utilizes Lot Size Modification, and includes an exception to lot frontage requirements and a Special Permit to allow an exception to the lot width/depth ratio. The subdivision is proposed to be developed as Phase 1 (Lots 1 through 3 and Remainder), Phase 2 (Lots 4 through 10 and Remainder) and Phase 3 (Lots 11 through 13). The subdivision will site the existing single family residence onto Lot 1. The project includes construction of a 3-bedroom single-family residence (approximately 2,400 square feet and 30 feet high with attached garage) on two lots. The parcels will be served by community water and on-site sewage disposal systems. The project includes off-site road improvements to address emergency access and traffic impacts on Mitchell Heights Road.</p>	<b>NOD</b>	
2006052170	<p>Burson Rehabilitation Caltrans #10 --Calaveras</p> <ul style="list-style-type: none"> <li>- Rehabilitate the pavement by sealing all cracks wider than 0.2 inch and placing a 2.36-inch rubberized asphalt concrete overlay on the existing roadway and shoulders.</li> <li>- Place shoulder backing next to the new overlay in both directions over the entire length of the project to support the depth of the new overlay.</li> <li>- Realign Pettinger Road to connect at a right angle to State Route 12. New right-of-way would be required at the southwest quadrant of the intersection.</li> <li>- Widen SR-12 to provide a left-turn lane for westbound traffic. Shoulders would be widened from 4 feet to the standard 8 feet in both directions. This work would require additional right-of-way on both sides of the highway.</li> </ul>	<b>NOD</b>

<b><u>Documents Received on Thursday, July 20, 2006</u></b>			
	entire length of the toe wall shall be vegetated with live willow poles, not fewer than 60 live willow poles for the project site. Above the rip-rap toe wall, the entire upper bank area shall be composed of imported local native alluvium and top soil in the upper 2-feet horizon, and graded to not more than 1.25(H):1(V) slope. The finished graded slope shall be hydroseeded or seeded with California native grass (California brome, e.g.), and covered with biodegradable medium-weight or heavy-weight erosion control blanket. The fabric-covered upper bank area shall be planted with 1-gallon container plants including, but not limited to (bay, willow, ash, maple, oak, and dogwood). Container plants will be planted through the fabric into over-excavated and amended soil holes. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0485-3 pursuant to Section 1602 of the Fish and Game Code.		
2006078184	East Laurel Creek Slope Stabilization Project Fish & Game #3 Belmont--San Mateo The City of Belmont proposes to stabilize the failing creek bank and reline the existing culvert. The City plans to break up and reposition the broken concrete apron from the bottom of the failed culvert outfall, slope, and supplement with natural riprap to form a creek bottom with a more natural grade transition to the existing outfall elevation. The remaining sackcrete wall would also be removed. A shotcrete and soil nail wall would be constructed to retain the unsupported embankment. The failed roadway behind the shotcrete wall would be backfilled and repaved. A stilling pond would be constructed to prevent further down-cutting, stabilize the culvert outfall, and improve opportunities for aquatic and terrestrial movement along the creek channel. The corroded corrugated metal pipe would be relined and voids below the pipe would be filled with slurry/grout. Issuance of a Streambed Alteration Agreement Number 1600-2006-0397-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2006078185	Abel Street Infrastructure Improvements Project/Channel Repair Fish & Game #3 Milpitas--Santa Clara The project area is approximately 1,250 linear feet of the east bank of Lower Penitencia Creek channel where it has experienced extensive erosion, which has undermined the existing sidewalk and some infrastructure along Abel Street. The City of Milpitas is proposing to repair the channel by stepping the bank and adding a clean soil/rock mixture (clayey soil with 15% Class 2 aggregate base) to the slope to rebuild it to its original dimensions and cross section. Most of the excavation, placement, compaction and reconstruction will be accomplished using suitable equipment to enable construction from the roadway above the channel. Issuance of a Streambed Alteration Agreement Number 1600-2006-0312-3 is pursuant to Fish and Game Code Section 1602.	NOE	08/18/2006
2006078186	Mazzucco Residential Bridge Fish & Game #3 --Napa The operator proposes to install an 89-foot long by 10-foot wide HS-20 load rated bridge over Hardin Creek at 4600 Hardin Road, Pope Valley, Napa County. The abutments will be approximately 65-feet apart. The abutments will be constructed of steel I-beams piles driven to the bedrock at a depth of 17 feet. Metal plates and compacted crush gravel will be used at the bridge approaches. Issuance of a Streambed Alteration Agreement Number 1600-2006-0085-3 is pursuant to Fish and Game Code Section 1602. 2004062064	Northwest Specific Plan Project San Ramon, City of San Ramon--Contra Costa The Northwest Specific Plan (NWSP) provides the vision for creating a balanced community composed of public facilities, open space, and residential neighborhoods within an overall 354-acre planning area. The plan provides guidance for the development of up to 830 single and multiple-family residential units emphasizing affordable housing opportunities, accommodation of important public facilities, and preservation of open space amenities. The Plan integrates open space, public trails, and wildlife habitat enhancement amenities with the development of a community park, a house of worship, an educational use facility, and five residential neighborhoods with densities ranging from 1.5 units per acre, to just over 40 units per acre. Overall, the Plan furthers a wide range of General Plan policies, including preserving at least 75% of the site area for public amenities and open space uses. The Faria Preserve Community is a combination of community facilities, 786 residential units, and substantial protected open spaces proposed within the Northwest Specific Plan Area. The Faria Preserve Community comprises the majority of the Northwest Specific Plan Area and implements the various amenities, objectives, and goals set forth in the NWSP, including those identified above.	<b>EIR</b>	09/05/2006
2004071095	West Haven Specific Plan (PSP03-006) Ontario, City of Ontario--San Bernardino The Project is a 202-acre master planned community that proposes the following Land Use Designations: Residential Low Density, Residential Medium Density, Neighborhood Commercial Center, Elementary School, and Neighborhood Park. The Project land uses will include 753 single-family detached residential units, approximately 9.2 acres of commercial development (including 87,000 square feet of building area and a parking lot), a 10-acre "concept" elementary school a 5-acre "concept" neighborhood park, and approximately 8.8 acres of paseos and pocket parks throughout the Project area and the adjacent utility easements.	<b>EIR</b>	09/05/2006

2005022038	<p>Sun City Tehama Specific Plan Tehama County Planning Department --Tehama</p> <p>The Sun City Tehama Specific Plan would allow the development of the approximately 3,320-acre Specific Plan Area as a master-planned community. This development would include a mix of residential uses, along with parks, an 18-hole golf course, a recreation center, and various commercial uses. Occupancy of the majority of the residential units would be restricted to active adults aged 55 and older. The proposed Specific Plan would also provide for over half of the Specific Plan Area to remain as natural open space.</p>	<b>EIR</b>	09/05/2006
2005121025	<p>Providence Pointe Fontana, City of Fontana--San Bernardino</p> <p>The 34.4 acre Providence Pointe project as proposed will consist of a mix of commercial-retail, single family residential units and attached townhomes/flats in an urbanizing area of north Fontana. A total of 10.4 acres will be developed with commercial-retail land uses that will provide a maximum of 121,000 square feet of building space. The remaining 24.0 acres will be developed with residential land uses consisting of 89 single family units on 4,000 square foot lots and 126 townhomes/flats. The maximum number of residential units provided within the Providence Pointe development will be 225 units. Other amenities to the community will include an integrated system of paseos and greenbelts, recreation center, and a central plaza area. The proposed project will be phased in a logical sequence and in response to market demands. A total of three construction phases are planned over an approximate five-year time frame.</p>	<b>EIR</b>	09/05/2006
2006032043	<p>The Villages of Patterson Patterson, City of Patterson--Stanislaus</p> <p>The Villages of Patterson Development Plan would establish a detailed framework for development of the project site by identifying allowable land uses and their locations, and providing development standards and design guidelines. A mixed-use central core (The Village Circle) would be surrounded by four residential neighborhood quadrants (Villages) offering a diverse range of housing types and integrated commercial/office uses, with sites reserved for parks, schools, and other public uses. A commercial/office/light industrial area is planned for the western edge of the Plan Area to buffer the Plan Area from SPRR and State Highway 33. The Plan Area would be linked by a system of roads, parks, and bicycle/pedestrian trails. At buildout, the Villages of Patterson is expected to accommodate up to approximately 3,100 dwelling units, up to about 723,800 square feet of commercial/office/light industrial uses, and up to about 267,900 square feet of public and civic uses.</p>	<b>EIR</b>	09/05/2006
2006071097	<p>Rainbow Reservoir Improvement Program Rainbow Municipal Water District Fallbrook--San Diego</p> <p>The Reservoir Improvement Program would involve the installation of floating covers that will rest on the top of the five reservoirs and inlet/outlet pipeline to improve reservoir water quality and turnover. Pipeline construction will include approximately 1,100 linear feet at the North Reservoir, 1,000 linear feet at the Northside Reservoir; 2,200 linear feet at the Morro Reservoir; 650 linear feet at Pala Mesa Reservoir; and 5,400 linear feet for the Beck Reservoir. The covers and inlet/outlet pipeline improvements would be built within RMWD's existing</p>	<b>MND</b>	08/21/2006

2006071098	Coronado Transbay Sanitary Sewer Force Main Project Coronado, City of Coronado, San Diego--San Diego The proposed project will replace the existing 30-year old Transbay Sanitary Sewer force main line under the San Diego Bay from the Transbay Lift Station at the Fery Landing in the City of Coronado to Seaport Village in the City of San Diego. The replaced Transbay Sanitary Sewer force main will consist of a new 23-inch inside diameter (ID), 3,150 lineal feet long, high density polyethylene (HDPE) material pipe which is anticipated to have a 70-year useful life. The project is proposed to address the existing 24-inch ID Ductile Iron Pipe which has corrosion, scaling, and build-up, reducing the pipe diameter to 19-inches. The proposed project will analyze two alternatives: Alternative 1: the No Build Alternative and Alternative 2: the Build Alternative using the horizontal directional drilling (HDD) method. Alternative 2 will consist of a single 45-inch bore (30 inch outside diameter (OD)/23-inch ID). The rehabilitation of the existing 24-inch Transbay Sanitary Sewer force main for potential use will also be considered if feasible.	<b>Neg</b>	08/21/2006

	and physical constraints will be observed and a biological monitor will be on site during all phases of construction to ensure no sensitive species are present in the construction area.		
2006078204	Removal Action Work Plan for Pacific Gas and Electric Chico Manufactured Gas Plant Toxic Substances Control, Department of Chico--Butte The Removal Action Workplan (RAW) proposes to excavate approximately 1,000 cubic yards of material from the former 12,000 gallon underground oil tank (UST) and transport it to a permitted facility. PG&E will excavate to 25 feet below the ground surface (bgs). Soil boring data show most of the contamination is 13 to 25 feet bgs. The RAW also proposes to implement a deed restriction for industrial/commercial use only and continue sampling the groundwater monitoring wells.  The RAW proposes to excavate approximately 800 cubic yards of soil from the Chico State University property and transport it to a permitted facility. PG&E will remediate the soil of levels accommodating unrestricted land use.  The groundwater under the MGP and Chico State University Property has been impacted. The RAW proposes to install additional wells to establish additional monitoring points.	<b>NOE</b>	
2006078205	American River Conservancy-Nature Center Upgrade Parks and Recreation, Department of --Alameda, El Dorado The American River Conservancy, a Marshall Gold Discovery SHP concessionaire located in the historic Kane House, is making alterations to the main display area inside the structure. The following work will be completed: (1) Add masonite panels to the south wall, the only wall without it; (2) install a new 1/2 door in the existing doorway that divides the Nature Center Display from administration office; (3) install new carpet on the existing underlayment; (4) move an existing aquarium to another part of the room and replace it with a reception desk; (5) attach a sound umbrella to the false acoustical tile ceiling on the northeast corner of the Nature Center display room. Over the years improvements to the interior of the Kane House have been made using modern materials and at present little of the historic fabric of the interior remains. None of the proposed changes in this project will harm historic fabric or change any of the character defining features of the structure. Project supports continued use and maintenance.	<b>NOE</b>	
2006078206	"Mothball" Locke Boarding House, Locke Boarding House Property Parks and Recreation, Department of --Sacramento This project will implement a number of actions and protect the Locke Boarding House, a historic building owned by the Department of Parks and Recreation (DPR) within the Town of Locke. The project will protect the structure from pests, weather, and vandalism with temporary reversible modifications that will cause the least impact to the building. This "mothballing" work is being completed to protect the building until plans are completed for the restoration and re-use of the structure as outlined in a 2006 Historic Structures Report. The proposed work includes: treating a bee colony in an exterior wall with pesticide following the recommendations of a licensed Pest Control Advisor; removing the bee hive; removing ivy from the perimeter of the structure and cutting and/or treating the	<b>NOE</b>

plants with herbicide; temporarily plugging holes and gaps in the walls and floor to prevent entrance of pests and water; ensuring bats, starlings and other wildlife are excluded from the structure in consultation with the District's Environmental Scientist; locating and repairing a leak on the roof; placing plywood and plastic sheeting over windows to protect the structure from weather; removing panes of window glass at risk of falling out, labeling, wrapping, and carefully storing each pane on site; and better securing the hasp and lock on one of the exterior doors. All work will be conducted following the Secretary of Interior's Standards for Treatment of Historic Properties and the guidelines in National Park Service Preservation Brief 31, "Mothballing Historic Buildings." A DPR-qualified cultural resource specialist will monitor all aspects of the work. Siding will be carefully removed to avoid damage and re-used in place after removal of the bee hive. If the cultural resource specialist determines any siding boards are too deteriorated for re-use, they may be replaced in kind when the building is restored/rehabilitated. Plywood may be used to protect the area until that time.

2003122002	Santa Clara Square (3700 El Camino Real) Santa Clara, City of Santa Clara--Santa Clara The project is a Planned Development rezoning application and variance application to allow a mixed use development of up to 490 residential units (including 10% affordable housing), up to 12,300 square feet of office space, up to 171,000 square feet of commercial/retail space and 1,672 parking spaces on approximately 12.6 acres at 3700 El Camino Real, the southwesterly quadrant of El Camino Real and Lawrence Expressway, in the City of Santa Clara. The 171,000 square feet of commercial/retail space includes 141,711 square feet of commercial/retail space (including the existing Kohl's store) that is currently on the site. A Development Agreement is also proposed.	EIR	09/07/2006
2005061161	Antelope-Pardee 500-kV Transmission Project Public Utilities Commission Santa Clarita, Lancaster--Los Angeles SCE proposes to construct a new, 25.6-mile 500 kV transmission line between SCE's existing Antelope and Pardee substations in north Los Angeles County. This project would replace an existing 66-kV line and traverse approximately 13 miles of National Forest System (NFS) lands. The proposed 500-kV transmission line would start at the Antelope Substation in the City of Lancaster, traverse the Angeles National Forest (ANF), and terminate at the Pardee Substation in the City of Santa Clarita.	EIR	09/06/2006
2004101048	Laurel Place Senior Housing Project West Hollywood, City of West Hollywood--Los Angeles The proposed project involves three separate elements: renovation of existing buildings, construction of new housing, and a public park. The two-story main house, which currently includes four residential units, would be reconfigured to include five one-bedroom senior apartments, one two-bedroom resident manager's office, and common space. The existing chauffeur's cottage located on the	FIN

	northwest corner of the site would be retained and rehabilitated for use as a single residential unit. The existing four-car garage and bachelor's apartment, located near the rear of the site, would be demolished to make way for 28 units of newly constructed one-bedroom senior apartments and a 21-car subterranean garage. All units are proposed to be approximately 540 sf. An area of approximately 8,600 sf, located on the eastern portion of the site and extending from the front of the main house to the public right-of-way, would be developed as a public park.		
2005114004	Reconstruction of the Furnace Creek Water Collection System National Park Service --Inyo NPS proposes to rebuild antiquated water collection system in Furnace Creek area to deliver safe and reliable drinking water to main use visitor area and provide separate delivery systems for potable and non-potable water. As part of project, NPS proposes to restore wetland/riparian habitat and ensure conservation of endemic species in area.	<b>FIN</b>	
2002091074	Project 01-101, Parcel Map No. 26363, Conditional Use Permit No. 87-360 for Valencia Commerce Center Los Angeles County Department of Regional Planning --Los Angeles The project consists of a Vesting Tentative Parcel Map (VTPM 26363) for the subdivision of 116 gross acres into 19 lots, 11 for light industrial/office uses, five for open space, three for infrastructure use including flood maintenance, and also a Conditional Use Permit application (CUP 87-360) for development and grading. Access to the project site will be through the existing Franklin Parkway, and from the proposed Hancock Parkway. An EIR was certified by the County of Los Angeles in conjunction with this prior approval. A total of 750,000 square feet of building floor area would be allowed. The new building area proposed over the 11 lots increases floor area to 9,437,000 square feet for the Valencia Commerce Center authorized under CUP 87-360. A total of 19.1 million cubic yards of on site grading has been authorized within the Commerce Center. To date, 14.7 million cubic yards of grading has been completed at the Valencia Commerce Center, and the development of the 11 light industrial/office space lots will entail the importation of 1.3 million cubic yards of earth from several borrowing sites located within future development areas of the Valencia Commerce Center. The importation of fill is necessary to raise the building lots above County and FEMA flood requirements and to construct the bank stabilization and other project improvements. Approximately 3,000 linear feet of its banks along its northern and southern boundaries, extended westerly from the Commerce Center Drive Bridge, are to be stabilized with the installation of soil and cement. This proposed bank stabilization/flood protection plan associated with the project is consistent with the flood protection analyzed in the Valencia Commerce Center Final EIR.	<b>MND</b>	08/22/2006
2006071108	RV Storage Facility Santa Fe Springs, City of Santa Fe Springs--Los Angeles The project involves the conversion of an undeveloped 6.7-acre parcel into a paved RV storage facility. The project would be completed in two phases with the first phase including a paved surface and uncovered parking as well as a manager's apartment on the site. The second phase would include paved parking spaces for 92 vehicles in two buildings totaling 45,900 square feet.	<b>MND</b>	08/22/2006

	Pumps = 7; and pipeline = 177,000 lineal feet.		
2006071106	Washington/National (Culver Junction) Specific Plan Culver City Culver City--Los Angeles The project seeks to plan for the development of multiple sites in the vicinity of the intersection of Washington and National Boulevards. The project is intended to coordinate and facilitate development as well anticipate the arrival of the Exposition Light Rail Transit Line which will temporarily terminate in the project area prior to being extended to Santa Monica. The Specific Plan would provide for a combination of neighborhood-serving commercial uses and multi-family housing, and would encourage the attraction and retention of artisan businesses and creative industries within the neighborhood. The project will accommodate transit oriented development to complement the future Exposition Light Rail Transit Station that is to be constructed on property within the project area owned by the Los Angeles County Metropolitan Transit Authority ("Metro").	<b>NOP</b>	08/22/2006
2006071107	9900 Wilshire Boulevard - Mixed-Use Beverly Hills, City of Beverly Hills--Los Angeles The proposal involves the redevelopment of a site currently developed with a 240,000 +/- s.f. vacant retail store (formerly Robinsons-May) and parking areas including a subterranean parking structure. These buildings would be demolished and replaced by 252 condominium units (2 12-story buildings at a height of 144 feet each, and 2 4-story loft buildings at a height of 48 feet each); approximately 19,856 s.f. of commercial (retail and restaurant) space at a height of approximately 16 feet; a two-level subterranean parking garage with approximately 950 spaces; and a public garden approximately 1/2-acre in size.	<b>NOP</b>	08/22/2006
2006071109	Arboretum Specific Plan Fontana, City of Fontana--San Bernardino The Arboretum Specific Plan proposes the development of four residential villages on the site, with a total of 3,526 residential units, an 8.9-acre activity center within a commercial zoned parcel, various parks, two elementary schools, a middle school, and greenbelts.	<b>NOP</b>	08/22/2006
2006072101	2225-2255 Third Street, San Francisco Planning Department Case No. 2002.1302E San Francisco Planning Department San Francisco--San Francisco The 50,000 square foot project site is located on 3rd Street, between 19th and 20th Streets. The proposed project would preserve and renovate two existing historic buildings and construct three new buildings above a new below-grade parking podium. The project would be approximately 242,185 square feet (sq. ft.), including approximately 179 residential units, a 5,262 sq. ft. restaurant, 11,434 sq. ft. of retail, a 2,393 sq. ft. day-care, a below-grade parking garage accessed from Illinois Street with approximately 157 parking spaces, 50 bicycle spaces, and two off-street loading spaces. The two new structures along Third Street would be 35 feet in height, at which point, the building would be setback 20 feet from the property line and would be 50 feet in height. The new building along Illinois Street would be 65 feet in height. The project site is located in an M-2 (Heavy Industrial) zoning district and a 50-X height and bulk district.	<b>NOP</b>	08/22/2006

	on Sunnymead Boulevard between Graham Street and Indian Street within the City of Moreno Valley, Riverside County.		
	Since the approval of the original project, a minor project modification has occurred that needs to be addressed within the context of CEQA and the State CEQA Guidelines. The City of Moreno Valley is improving Sunnymead Boulevard between Frederick Street and Perris Boulevard. Additional pipeline will also need to be replaced to avoid the proposed City of Moreno Valley street curb, landscaping, and sidewalk improvements. The proposed Sunnymead Boulevard pipeline alignment will be modified as follows: the pipeline will extend approximately another 5,400 lineal feet in the street section and within the public right-of-way east from Indian Street to Perris Boulevard and west from Graham Street to Frederick Street. Additionally, approximately 500 lineal feet of cross connection pipeline will also be installed in Heacock Street at Sunnymead Boulevard. This alignment will be modified at the request of the City of Moreno Valley.		
2003121054	Redevelopment Project No. 5 Glendora, City of Glendora--Los Angeles The project includes the merger of four of the Agency's existing redevelopment areas in the City (Project Area Nos. 1, 2, 3, and 5), add new territory, and establish the authority to purchase non-residential real property through eminent domain in all four areas.	<b>NOD</b>	
2003122109	Tracy Boulevard Bridge Seismic Retrofit Project San Joaquin County Tracy--San Joaquin The project would entail installation of brackets at the main trunnion bearings; construction of a bent cap and driving piles at piers 7 and 11; installation of seat extenders at piers 3 and 4; and installation of a hinge restrainer at the deck joints near piers 9 and 12.	<b>NOD</b>

<b><u>Documents Received on Monday, July 24, 2006</u></b>			
2006052115	Breckenridge Lane Water Project Anderson, City of Anderson--Shasta The City of Anderson proposes to extend a water main to serve an area at the north end of the City off of State Highway 273. The water line will extend from an existing water line in the vicinity of the Shasta County Fairgrounds north to Breckenridge Lane on the west side of Highway 273. A section of the main will be extended east under Highway 273 and the Union Pacific Railroad tracks along Alexander Avenue and Bellevue Lane to connect with an exiting water line from the City's Ox Yoke/Riverside pressure system at Loop Street. The objective of the project is to resolve health and safety issues in the north area of the City.	<b>NOD</b>	
2006079023	Smith Creek Timber Harvest Plan - Streambed Alteration Agreement Forestry and Fire Protection, Department of --Plumas Streambed Alteration Agreement 1600-2006-0092-R2. This involves the installation of a 60" diameter corrugated metal pipe (CMP) to replace an undersized 24" diameter CMP, and the construction of a temporary rocked ford.	<b>NOD</b>	
2006079024	Brookside Drive Family Housing San Pablo, City of San Pablo--Contra Costa The project includes construction of 144 apartments, on approximately 3.7 acres of vacant land, on the bank of Wildcat Creek. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0790-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Wendy Yan, Simpson Housing Solutions.	<b>NOD</b>	
2006079025	PUD 04-08(A) - Villages of La Costa Greens, Neighborhood 1.17 Carlsbad, City of Carlsbad--San Diego Request for a determination that the project is within the scope of the previously certified Villages of La Costa Program EIR and that the Program EIR adequately describes the activity for the purposes of CEQA; and a recommendation of approval of a Major Planned Development Permit Amendment for building floor plans, elevations and plotting for the development of 107 single-family detached homes within the Villages of La Costa, Greens Neighborhood 1.17, generally located on Estrella De Mar Road, south of Poinsettia Lane, west of El Camino Real, east of Alicante Road, north of Alga Road and within Local Facilities Management Zone 10.	<b>NOD</b>	
2006079026	Dreessen / TPM20727 / ER 03-02-008 San Diego County Department of Planning and Land Use Unincorporated--San Diego The project proposes the subdivision of an 11.93-acre parcel into 2 parcels subject to the Regional Land Use Element 1.3 Estate Development (EDA) and General Plan Designation (19) Intensive Agriculture. The proposed project has gross parcel sizes of 2.44 and 9.41 acres. The project site contains an existing single-family residence and associated accessory structures. Currently, there are avocado and citrus groves. The zoning is A70 - Limited Agriculture.	<b>NOD</b>

	through development or redevelopment in the Specific Plan area.		
2006072106	Ukiah Air Attack Base Relocation Project Forestry and Fire Protection, Department of Ukiah--Mendocino The California Department of Forestry and Fire Protection (CDF) proposes to lease approximately 9 acres of land in the southeast corner of the Ukiah Municipal Airport for the relocation of its existing Air Attack Base facilities. Current Base facilities are located within the west central portion of the Ukiah Municipal Airport. The proposed project is designed to be a replacement for the existing Base with facility upgrades to provide safer and more efficient operations. While the operation of the airbase will have the same level of personnel, aircraft and equipment assigned as now, the number of planes that can be loaded during a major fire event will increase from two at a time to four at a time. As a result, fire fighting capabilities will be improved due to reduced response time. Ownership of the existing facilities will revert to the airport.	<b>NOP</b>	08/23/2006
1998071048	Randall Basin Improvement Project San Bernardino County Land Use Services Department The Randell Basin Improvement Project includes a proposal to construct a reinforced concrete pipe (RCP), spillway structure and make improvements to existing flood control structures.	<b>Neg</b>	08/23/2006

2006078233	Mission Boulevard Rehabilitation Ontario, City of Ontario--San Bernardino This project entails reconstructing existing asphalt pavement, placing asphalt overlay, and replacing of curb and gutter, sidewalk, and access ramps. This project provides for improving the rideability, resisting further deterioration, and extending the useful lifespan of the existing pavement surface.	NOE	
2006078234	Improve Mainline Operations Caltrans #2 --Trinity The proposed project is located in Trinity County, approximately 7.5 miles east of Weaverville, at 040° 40' 04.6" N 122° 53' 25.0" W. Improvements will take place between 1.1 miles east of the Indian Creek Bridge to 0.18 mile east of Steel Bridge Road, on SR-299 between Kilometer Post (KP) 97.8/98.6 [Post Miles (PM) 60.8/61.2]. This project will improve mainline operations on SR-299 while improving access to Steel Bridge Road. Improvements include construction a left turn lane in the eastbound direction and a right turn lane in the westbound direction of SR-299 to facilitate safe access to private residences and properties on Steel Bridge Road. Sight distance will also be improved at the intersection of Steel Bridge Road and SR-299 by realigning the intersection to eliminate a tight curve that motorists currently cannot see around. This will be accomplished by removing earthen material from the steep bank at the curve and redepositing the material in areas that accomplish a smooth transition through the travel way, shoulders and clear recovery areas. Shoulders will be widened to current standards for emergency use and clear recovery zone will be established. A school bus stop will be constructed on the northwest corner of Steel Bridge Road and SR-299. Existing culverts will be extended and improved as needed throughout the project area. An existing livestock under crossing will be extended. This under crossing is currently used by wildlife to access the Trinity River. All cut and fill material will be balanced; therefore no borrow or disposal site will be employed for this project. All staging of material and equipment will be on site and within the Environmental Study Limits (ESL).	NOE	
2006078235	New Traffic Signals Caltrans #2 --Tehama This project will install new traffic signals at the corners of Cedar Street and SR-36 in Red Bluff. In order to excavate to place the new light standards, the existing sidewalk will be removed and afterward replaced (meeting ADA compliance). Trenching will take place to connect to existing electrical. Review of "As Built" plan maps shows existing electric in the alley's perpendicular to Cedar Street connection to a main trunk running along Cedar Street. Portions of an existing sub-surface electrical system will be abandoned. This clearance is good for work that occurs within the described environmental study limits (ESL) and for work that minimizes excavation activities within the ESL that are required to stand the signal poles, wire the signal poles and connect to power at the most prudent existing source of power within the ESO. Curb, gutter, and sidewalk construction is limited to that described in the IRDAP#2141, generated on 09/07/05.	NOE

<b><u>Documents Received on Tuesday, July 25, 2006</u></b>			
2006078236	Storm Damage Caltrans #3 Unincorporated--Sierra The project proposes to repair storm damage that occurred at PM 10.0 & 24.9. The project is a Director's Order, under the Storm Damage Program. Storms and high river flows have caused the embankment to erode and fail, undermining the shoulder and the Metal Beam Guardrail (MBG). The embankments and shoulders will be repaired and reinforced. This repair will provide a safe and reliable transportation facility.	<b>NOE</b>	
2006078237	Mono Lake Guard Rail Reconstruction Caltrans #9 --Mono Reconstruct guard rail to upgrade sections that are bent or leaning away from highway. Move guard rail towards highway shoulder such that hinge point is not on eroding slope. Put retaining wall in 300 foot section where guard rail cannot be moved in towards highway because of narrow highway shoulder. Upgrade guardrail end treatments.	<b>NOE</b>	
2006078238	Gold Lake Highway Culvert Replacement Project SAA# 1600-2006-0177-R2 Fish & Game #2 --Sierra The project proposes to replace the existing concrete 30" box culvert with the construction of a 40" single-span bridge over Howard Creek. In addition, the project proposes to replace the existing timber crib wall along the downstream east bank with a pre-cast concrete crib wall.	<b>NOE</b>	
2006078239	Streambed Alteration Agreement between the California Department of Fish and Game and the City of Vacaville for Routine Maintenance of Stream Channels and Drain Fish & Game #2 Vacaville--Solano The Streambed Alteration Agreement would allow for routine and emergency maintenance work; debris or obstruction removal; silt, sand, and sediment removal; vegetation control; erosion control and repair and maintenance activities within the city channels.	<b>NOE</b>	
2006078240	Pearl Street Bridge Replacement (Downie River) Project SAA #1600-2006-0178-R2 Fish & Game #2 --Sierra The proposed project includes the removal of the existing 12 foot wide 119 foot long structure and replacing it with an 18 foot wide single lane steel truss main span.	<b>NOE</b>	
2006078241	Chapel Roof, Seismic and Accessibility Upgrades Parks and Recreation, Department of --Monterey Structurally retrofit the historic Chapel building located at Asilomar State Beach and Conference Grounds to restore the roof to its historically accurate wood shingle construction; and to provide accessibility upgrades per current ADA standards.	<b>NOE</b>

2006078242	<p>Secondary Drinking Water Standards - Regulation Package R-21-03 Health Services, Department of</p> <p>--</p> <p>Pursuant to HSC section 116555(a)(1), public drinking water systems are required to comply with secondary drinking water standards. The existing secondary drinking water standards regulations lack clarity and a specific procedure for determining secondary Maximum Contaminant Level (MCL) compliance. Therefore, the Department proposes to amend existing section 64449, Chapter 15, and adopt two new sections (94449.2 and 64449.4) into the same chapter to update and clarify the Secondary Drinking Water Standards regulations. The proposed amendments to section 64449 (Secondary Maximum Contaminant Levels and Compliance) involve a reorganization of the existing requirements, the elimination of the corrosivity standard, and a clarification of the secondary MCL compliance determination procedure. The proposed section 64449.2 (Waivers for Secondary MCL Compliance) clarifies and incorporates application requirements for secondary MCL waivers from the existing Section 64449. Proposed Section 64449.4 (Use of Sources that Exceed a Secondary MCL and Do Not Have a Waiver) includes proposed requirements for the short-term use of a source that exceeds a secondary MCL.</p>	<b>NOE</b>	
2006078243	<p>Expansion of an Existing Electrical Substation at Deuel Vocational Institution (DVI) Corrections and Rehabilitation, Department of Tracy--San Joaquin</p> <p>DVI proposes to increase its current electrical capacity from 2.5 MW to 6.4 MW by upgrading the existing electrical substation. The existing onsite substation cannot accommodate the additional load needed to operate the proposed new Reverse Osmosis (RO) Water Treatment Facility scheduled for construction in the fall 2006. The proposed conceptual scope of work for the electrical substation is outlined in the Pacific Gas and Electric's (PG&amp;E) Draft Facilities Study Report, dated June 19, 2006. PG&amp;E Land Services has determined that no land work will be required for their part of this project. DVI proposes to build its own 60/4.16 V substation adjacent to the existing substation and remove the PG&amp;E facilities after completion of the project. The proposed project would not cause any new normal or emergency overloads on the PG&amp;E system. To serve the DVI substation, PG&amp;E will connect the new substation to the existing 60 kV line and change relay settings at three PG&amp;E substations. DVI will construct, own and operate the 60/4.616 kV substation with a new 7.5/9.5 MVA transformer. The transmission line work involves terminating existing conductors to the new pull-off structure and removing excess poles, conductors and devices. In additional work described in PG&amp;E's report, the project includes upgrading existing switchgear and providing a new connection to the proposed RO facility. The connection to the RO facility will be a typical pole line design. The new line will run along existing service roads up to RO project site. A copy of the PG&amp;E Facility Report is available for review upon request by calling (916) 323-0731.</p>	<b>NOE</b>	
2006078244	<p>Lease of Office Space in Multi-Tenant Building Industrial Relations, Department of Buena Park--Orange</p> <p>The Department of Industrial Relations, Division of Workers' Compensation, is proposing to lease approximately 24,970 square feet of office space. The office will have approximately 43 employees. Public parking is available on-site and nearby. Public transit is available within 1/4 mile of the site.</p>	<b>NOE</b>

2006078245	Lease of Office Space in Multi-Tenant Building Industrial Relations, Department of --Los Angeles The Department of Industrial Relations, Division of Workers' Compensation, is proposing to lease approximately 36,295 square feet of office space. The office will have approximately 64 employees. Public parking is available on-site and nearby. Public transit is available within 1/4 mile of the site.	<b>NOE</b>	
2006078246	Granite Launch Access Improvement Boating and Waterways, Department of --Kern The project completes a river access project consisting of a metal boat slide, trail access to the river, placement of signs and information kiosk, parking area improvement, removal of a hillside for traffic line-of-sight, and paving of an approach roadway.	<b>NOE</b>	
2006078247	Transfer of Coverage to El Dorado County APN 31-045-05 (Meyer) Tahoe Conservancy South Lake Tahoe--El Dorado Project consists of the sale and transfer of 400 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	<b>NOE</b>	
2006078248	Caltrans Headquarters Building Annex 1 Accessible Ramp Replacement Caltrans, Planning Sacramento--Sacramento Caltrans Headquarters Building Annex 1 has an existing accessibility ramp for individuals with disabilities that does not currently meet the federal American Disability Act (ADA) or Uniform Building Code (UBC) requirements. The proposed project would demolish the current ramp and be replaced with a compliant ramp in the same location. The accessibility lift at the entrance to the building is currently under construction and will be completed prior to the demolition of the current ramp. The lift will be available for first floor evacuations. The time duration of the demolition of the old ramp and the construction of the new ramp is no more than 4 months.  The original building has been determined to be historically significant. It has been added to the California Register of Historical Resources and is also eligible for the National Register of Historic Places. The Department of General Services has determined, and the State Historic Preservation Officer (SHPO) has concurred, that the project design does not threaten or destroy the historical significance or character defining features of the building or property.	<b>NOE</b>	
2006078249	Transfer of Coverage to Placer County APN (83-096-05) Tahoe Conservancy Unincorporated--Placer Project consists of the sale and transfer of 400 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	<b>NOE</b>

	<p>ensure the land use remains unchanged.</p> <p>- Conducting periodic groundwater monitoring. Groundwater monitoring will include annual measurements of water level (gauge for depth) to conform flow direction and gradient, and field chemistry testing, including pH, conductivity, salinity, and oxidation-reduction potential. Any field test deviation result that is greater than 50% of the previous sampling event will trigger one round of groundwater analytical sampling and laboratory analysis at that well to determine if the chemical (VOCs and PCBs) concentrations have significantly changed. The new five wells will be sampled and analyzed for VOCs and PCBs annually for the first five years, then every five years for 15 years, a total of 20 years. The existing 40 groundwater will be sampled and analyzed for VOCs and PCBs at a frequency of every 5 years for 20 years. Out of the 45 wells, 16 wells will be monitored for PCBs for an additional 30 years, i.e., a total of 50 years.</p>		
2006072108	<p>Culinary Institute of America/Carpy Property St. Helena, City of St. Helena--Napa</p> <p>The proposed project involves renovation of the existing single family dwelling on the site (the Carpy house), and grading of the site to accommodate approximately 85 vehicle parking spaces for the adjacent Culinary Institute of America. The project also involves removal and replacement of trees.</p>	<b>Neg</b>	08/24/2006
2006021015	<p>McLaughlin Reservoir Project Eastern Municipal Water District Unincorporated--Riverside</p> <p>The proposed McLaughlin Reservoir Project (project) would consist of the construction of a 4.3 million gallon water storage reservoir, pump station, and associated pipelines, access road, and tie-ins. The proposed project is required within the Ellis Pressure Zone for providing water for the previously approved Menifee Valley Ranch development. The purpose/objectives of the proposed project would be to provide adequate fire flow for fire hydrants, provide adequate capacity to meet the established maximum day demand that would, for example, occur during the hottest summer day, and to provide adequate emergency capacity should electric power be interrupted. The existing water storage capacity and distribution system within the Ellis Pressure Zone does not have the capacity to meet the above provisions for the proposed development in the surrounding area.</p>	<b>Oth</b>	
1990021097	<p>Specific Plan No. 284 (Quinto Do Lago) Change of Zone No. 6547 Riverside County --Riverside</p> <p>The amendment to Specific Plan No. 284 proposes to modify the land use designation of Planning Area 6 from Medium High Density Residential (5-8 du/ac) with a Specific Plan target density of 6.3 du/ac to Medium High-Multi-Family Residential with a new Specific Plan target density of 7.7. The Specific Plan will also transfer dwelling units within the Quinta Do Lago Specific Plan to accommodate this project proposal. Change of Zone No. 7061 proposes to modify the Specific Plan Zoning Ordinance Text for Planning Area 6 to accommodate a Multi-Family Cluster Development. Tentative Tract Map No. 33170 proposes a Schedule "A" subdivision of the 20.80 acres into 23 multi-family lots, one park/private recreation site (lot 24), and 34 lettered lots for private road easements, open space drainage areas, and recreation areas. Plot Plan No. 19962 proposes the siting, setback, and development footprint for the construction of 140 condominium units.</p>	<b>NOD</b>

2003011139	IS 02-0047 Imperial County --Imperial Revision to the Solid Waste Solid Waste Facility Permit - Landfill, on property also described as Tract 209 of Section 24, T15S, R12E, SBBM. APN 034-320-34-01.	<b>NOD</b>	
2006011119	City of Newport Beach General Plan Update EIR Newport Beach, City of Newport Beach--Orange A comprehensive update of the City's General Plan.	<b>NOD</b>	
2006012057	72 Townsend Street Residential Project San Francisco Redevelopment Agency San Francisco--San Francisco The proposed project, sponsored by Lambert Development LLC, a Delaware limited liability company, consists of redevelopment of an existing single-story warehouse building into an eight-story building providing about 74 dwelling units, 74 above-grade parking spaces on two levels, and 5,000 square feet of ground floor neighborhood convenience retail uses. The rectangular-shaped project site is on the west side of the city block bounded by Townsend, Colin P. Kelly Jr., Brannan, and Second Streets in the South Beach area of San Francisco.	<b>NOD</b>	
2006021015	McLaughlin Reservoir Project Eastern Municipal Water District Unincorporated--Riverside The proposed McLaughlin Reservoir Project (project) would consist of the construction of a 4.3 million gallon water storage reservoir, pump station, and associated pipelines, access road, and tie-ins. The proposed project is required within the Ellis Pressure Zone for providing water for the previously approved Menifee Valley Ranch development. The purpose/objectives of the proposed project would be to provide adequate fire flow for fire hydrants, provide adequate capacity to meet the established maximum day demand that would, for example, occur during the hottest summer day, and to provide adequate emergency capacity should electric power be interrupted. The existing water storage capacity and distribution system within the Ellis Pressure Zone does not have the capacity to meet the above provisions for the proposed development in the surrounding area.	<b>NOD</b>	
2006041068	PLN040502 - Whisler Monterey County Planning & Building Inspection Carmel--Monterey The primary focus of this project is for proposed road improvements to provide year-round access along an existing road to a 317-acre parcel. The existing road extends approximately 1.5 miles from California State Highway 1 to the Whisler/Wilson property, cutting across San Jose Creek at three wet crossings. The proposed project includes three bridges to replace the wet crossings. These and other proposed road improvements would allow year-round access for farm equipment and cattle, as well as increase road safety for cattle and ranch personnel. The cattle pasture is not a new use of the property. The property has been utilized by the Whisler/Wilson/Riley family for pasture of beef and dairy cattle for at least 100 years. A second reason for improving the road is to provide year-round access to an existing cabin and possibly a new residence in the future. A Conservation and Scenic Easement Deed imposed upon the 317 acres by the owners of the property limits development on the parcel to one family residence.	<b>NOD</b>

<b><u>Documents Received on Wednesday, July 26, 2006</u></b>			
	The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2004-0812-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Vic Lewis and the Monterey County Public Works Department.		
2006052057	Tieback Retaining Wall Caltrans #1 --Mendocino Caltrans proposes to replace a failing log crib wall on the west side of SR-1 by constructing a new tieback retaining wall. The new timber lagging tieback wall would be approximately 200 m (656 ft.) in length and constructed below and west of the existing roadway. The completed project would provide for two 3.6 m (12 ft.) wide traffic lanes and two 1.2 m (4 ft.) paved shoulders. After completing the structural components of the wall, a soil embankment would be placed in front of the wall and landscaped.	<b>NOD</b>	
2006079030	Site Plan Review No. 2004-005 (File 502.664) Negative Declaration No. 2004-001 Hanford, City of Hanford--Kings A proposal to construct a water well (No. 43) with pump house and extensions of water main to future water tanks north of Grangeville Blvd.	<b>NOD</b>	
2006078252	Lewis Road Bridge Scour Maintenance Solano County Water Agency --Solano During a routine bridge inspection, Caltrans noted that the Lewis Road County Bridge (No. 23C-207) was adversely impacted by scour of the flood control channel. This project was previously scheduled to be conducted this fall as a routine maintenance project. However, in light of the exacerbating circumstances, the project is now deemed an emergency project that MUST be completed prior to the next storm season.  The proposed project is to install a boulder weir to inhibit further channel degradation and promote re-establishment of the as-built channel grade by natural recruitment of bed material. SCWA will also backfill the scoured areas immediately surrounding the structures with small cobble rock to provide immediate protection of the exposed footings.	<b>NOE</b>	
2006078253	Husch Navarro River Diversion Fish & Game #3 --Mendocino The proposed project involves the diversion of up to 84 acre feet of water from the Navarro River in Mendocino County for irrigation and frost protection of 40 acres. Water diversion is covered under License 10324 (Application 23120). Point of diversion is located due south 650-feet from center corner of Section 3, T14N, R15W, MDBM. The existing license allows for the diversion of 0.218 cubic feet per second (cfs) from March 15 to October 1 of each year. Issuance of a Streambed Alteration Agreement Number 1600-2006-0037-3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>

2004031104	Viborg Sand and Gravel Conditional Use Permit / Reclamation Plan Grading Permit ED03-137; D020301D San Luis Obispo County --San Luis Obispo This project entails the continuation of a commercial in-stream sand mine that will extract and process up to 25,000 cubic yards of sand and gravel annually. The project is located adjacent to (processing) and in (excavation) the Salinas River, on the west side of El Pomar Drive, approximately 0.1-mile north of the intersection of El Pomar and Moss Lane, in the community of Templeton, San Luis Obispo County.	<b>NOD</b>	
2005069036	Gale Ranch Phase III Contra Costa County Community Development --Contra Costa The project involves development of 968 acres, located in Dougherty Valley in Contra Costa County, into mixed residential with 1,000 acres preserved as open space. Impacts include 21,895 linear feet of creek and tributary impacts. The California Department of Fish and Game (DFG) is executing a Lake and Streambed Alteration Agreement Number 1600-2004-0273-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Steve Savage / Shapell Industries of Northern California.	<b>NOD</b>	
2006041165	Proposed Land Exchange/Sale Between Westlands Water District and Adjacent District Landowners Westlands Water District --Fresno The proposed project will involve the exchange of land owned by Westlands, under the terms and conditions of the non-irrigation covenant, for land owned by an adjacent District landowner. Westlands will also sell other adjacent land to a private landowner, however, this land will be sold "as-is" and subject to the non-irrigation covenant. The project area is in the vicinity of Five Points in western Fresno County.	<b>NOD</b>	
2006061050	Site 6, T-Range Open Burn Facility, China Lake Naval Air Weapons Station Toxic Substances Control, Department of Ridgecrest--San Bernardino, Kern Site 6, T-Range Open Burn Facility, Remedial Action Plan/Record of Decision. The Department of Toxic Substances Control (DTSC) is proposing to approve the feasibility study and the Navy's preferred remedial alternative for Site 6 (the engineered alternative cap). The selected remedy will be documented in a Record of Decision/Remedial Action Plan. The selected remedy and remedial design will amend the existing approved Closure Plan for the Site 6 T-Range Open Burn facility through a Class 2 modification for the China Lake NAWS hazardous waste facility permit. Approval of the feasibility study and the preferred remedy by DTSC is pursuant to the requirements of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), and Chapter 6.8, Division 20 of the California Health and Safety Code. Site 6 served as an open-burn facility from 1946 to 1991 and was operated by the Ordinance Systems Department at NAWS China Lake. Site 6 covers approximately 35 acres of disturbed ground with six distinct disposal areas (Areas 1 through 6) that includes pits, trenches, and aboveground tanks used for open burning of waste. The proposed action for Site 6 consists of capping the contaminants at Areas 1 and 3 in place using an engineered alternative cap. Native soil from the site will be used to construct the	<b>NOD</b>

	and overturned due to high water from Kentucky Creek and South Yuba River during the January 2006 storm event. Dismantle and remove existing restroom and rehabilitate the immediate area. Install new manufactured CXT vault toilet across the highway on an existing parking lot, out of the flood plain and in a higher visitor use area. Restroom will meet ADA standards. ADA parking will be provided adjacent to the building. Excavate an area 6 feet deep by 6 feet wide by 12 feet in length for the new vault toilet. Build surface level with fill for installation of the vault toilet and to meet ADA requirements for parking and access. Pave parking and access path in front of and adjacent to restroom within a maximum two percent cross slope in all directions. No vegetation will be disturbed.		
	Should the proposed action result in exposing or identifying significant archaeological properties, project work will be suspended until an appropriate data treatment program is designed and implemented by or under the supervision of a Department of Parks and Recreation (DPR)-qualified archaeologist.		
2006078277	Stone Creek Area Infested Tree Felling, Mt. San Jacinto SP (05/06-IE-29) Parks and Recreation, Department of --Riverside The project involves felling of dead and dying trees resulting from bark beetle attack within the Idyllwild Gateway Zone. Dead vegetation within this zone poses a significant threat of life and property in a wildfire event due to its location along Highway 243, a critical evacuation route for the communities of Idyllwild and Pine Cove. This portion of Riverside County has been under a declared State of Emergency due to the excessive fuels situation since 2003. Trees will be removed according to California Forest Practice Rules and within guidelines dictated by department policy and the district's biologist, archaeologist, and historian. This project is addressed within the NCRS Emergency Watershed Protection Program EA submitted to the State Clearinghouse (SCH# 2004071154).	<b>NOE</b>	
2006078278	Concrete Slab, Auto Shop, Lake Perris (06/07-IE-1) Parks and Recreation, Department of --Riverside Install a concrete slab and auto hoist adjacent to the auto shop and welding shop for vehicle repairs.	<b>NOE</b>	
2006078279	Montgomery Woods - Reitzell Land Acquisition General Services, Department of --Mendocino The proposed project consists of an acquisition of a small parcel comprising approximately 2 acres located within the Montgomery Woods State Park Reserve. The property has State Park land to the west, south, and east of this parcel. A stream is located along the northerly property boundary. The proposed action will provide for the opportunity to secure an in-holding and to enlarge the existing reserve. The project will transfer ownership of land to the California Department of Parks and Recreation to ensure preservation of open space and historical resources, provide for wildlife habitat, and allow for future public access.	<b>NOE</b>	
2006078280	Transfer of Coverage to El Dorado County APN 31-223-16 (Binns) Tahoe Conservancy South Lake Tahoe--El Dorado Project consists of the sale and transfer of 367 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. 2005101070	Madera Town Center Madera, City of Madera--Madera The proposed retail center will be approximately 795,000 square feet of gross floor area located on a 100-acre site. Approximately 4,050 on-site parking spaces will be provided. The project will be constructed in two phases with approximately 80% of the square footage to be constructed in Phase 1 and the remainder in Phase 2. The retail center will be grouped around one large main parking area and several small parking areas. Based on what is allowable under the City of Madera zoning code, building heights could range up to 65 feet with building setbacks from property lines to be determined during site plan review. Store frontages will vary between 30 feet and several hundred feet. The main retail buildings will be equipped with rear loading facilities adjacent to Schmidt Creek on the north side of the project site. The conceptual site plan shows three pylon signs adjacent to Union Pacific Railroad and SR-99 and three entrance signs along Avenue 17.	<b>EIR</b>	09/11/2006
2006052015	1746 Post Street Commercial Use Project San Francisco Redevelopment Agency San Francisco--San Francisco The proposed project, sponsored by Shogakukan, Inc., consists of the demolition of an existing two-story-plus-mezzanine-and-basement office building and the construction of a three-story-plus basement 20,542 square foot commercial building that would include a cinema, lobby, coffee bar, ancillary support space, and retail and/or office space. The rectangular-shaped project site is on the south side of the city block bounded by Post, Webster, Sutter, and Laguna Streets in the Nihonmachi area of San Francisco. The project site is located at 1746 Post Street.	<b>EIR</b>	09/11/2006
2006071130	Bloom Minor Grading Permit; Log No. 05-14-017, Minor Grading Permit # 1026-2005008 San Diego County Department of Planning and Land Use Unincorporated--San Diego Cut and fill of 2,077 cubic yards of soil on-site for the construction of one single-family dwelling unit.	<b>MND</b>	08/28/2006
2006071133	Laguna Canyon Road Multi-Use Trail Project Orange County Laguna Beach--Orange The County Resources and Development Management Department (RDMD) is proposing the establishment of a multi-use Trail that will provide continuous recreational access within Laguna Canyon Wilderness Park (LCWP). In addition to recreational access, the proposed Trail will serve as a fire access road and maintenance and operation road for Southern California Edison (SCE) towers in the vicinity. With the recent realignment of Laguna Canyon Road, the continuity of existing multi-use trails has been affected. The proposed project would serve to restore recreational, fire, and utility access within this portion of LCWP.	<b>MND</b>	08/28/2006
2006072113	Gospel Outreach Church Phased Final Map Subdivision/Planned Unit Development/CUP/SP Humboldt County Community Development Services Eureka--Humboldt The re-subdivision of Parcel Map 2312 to result in 13 residential parcels ranging in size from +/- 3,145 sf - +/- 14,814 sf plus a 14th parcel to be +/- 70,000 sf where a	<b>MND</b>	08/28/2006

	church/school is proposed under the CUP application. The applicant requests a PUD to allow substandard parcel sizes and 0' lot lines for Lots 1-2 and 3-4 and reduced parcel sizes for Lots 5-8 in order to reach the densities required under the Housing Element. Lots 9-12 include a blanket Special Permit for Secondary Dwelling Unit (SDU) on each. In exchange for the PUD allowances, a small public open space area toward the rear of the church parcel will be dedicated for the use of the residents of the subdivision. Additionally, the applicant requests an exemption from the solar shading requirements per §322.5-8(a) of the Subdivision Ordinance. The +/- 5 acre subdivision is currently developed with a residence in the SE corner (APN -47). In order to expedite the sale of this residence to help fund the development in total, the applicant proposes a phased subdivision wherein Lot 13 will be separated from the rest under Phase 1 and the remainder of the lots divided under Phase 2. The site is served by community water and sewer.		
2006072115	Pedro Teixeira / Camino Dorado Associates, Use Permit #P05-0382-UP Napa County Conservation Development & Planning Department Napa--Napa Application for a use permit to allow reconstruction of an existing warehouse building and construction of two new, free-standing industrial warehouse buildings that will be 5,200 square feet and 12,500 gross square feet in size (36,475 square feet total). Building A, located close to North Kelly Road frontage, will be 125 square feet with an inset 28 feet by 15 feet loading dock (about 15,200 square feet net); Building B, the reconfigured center structure, will have a staggered, three-section design with 40-foot, 35-foot and 30-foot wide sections as a 8,775 square foot building with up to three potential tenant spaces; and the front, Building C, located close to Camino Oruga frontage, will be 100 feet by 125 feet (12,500 gross square feet).	<b>MND</b>	08/28/2006
1993011028	Lake Hodges Pump Station No. 9 San Diego County Water Authority Construction of Pump Station 9 at Lake Hodges will temporarily disrupt an existing segment of the proposed Coast to Crest Trail, which is part of the San Dieguito River Park JPA. The certified EIR for the Emergency Storage Project included Mitigation Measure R-8, which called for realignment of the segment of Coast to Crest Trail affected by pump station construction. Subsequent to adoption of the mitigation measure, it was determined that temporary trail realignment was infeasible due to terrain constraints and significant impacts to existing habitat.	<b>NOP</b>	08/28/2006
2006071127	Proposed Westfield North County Expansion EIR Escondido, City of Escondido--San Diego Westfield Corporation proposes a comprehensive Master Plan revision that will include 445,000 SF of new, gross leasable area. The request would allow expansions to existing department stores, new use categories and new tenants that could include a theater, discount department stores, warehouse clubs, new restaurants, lifestyle tenants, entertainment and specialty retailers, and other anchor stores.	<b>NOP</b>	08/28/2006
2006071131	Calvary Chapel Church and School Vista, City of Vista--San Diego The proposed project consists of a request for approval of a Special Use Permit, inclusive of a Site Development Plan, to construct a church and private school facility, recreational fields, parking, and a separate industrial building on a 20.95	<b>NOP</b>	08/28/2006

	acre site. The project includes grading of the entire site and development of the buildings, public street improvements on N. Melrose Drive and North Avenue, private access driveway, parking, utilities, drainage improvements, landscaping, and associated site improvements.		
2006071134	East Area 1 Specific Plan Santa Paula, City of Santa Paula--Ventura The East Area 1 Specific Plan consists of approximately 508 acres (ac) located within unincorporated Ventura County, immediately east of the City fo Santa Paula. Portions of the site are currently in active production. The following uses are proposed: (1) 1,077 to 1,500 residential dwelling units (du); (2) up to a total of 156,000 square feet (sq ft) of retail commercial space, 113,000 sq ft of office space, and up to 170,000 sq ft of light industrial and research and development space; and (3) approximately 75 ac identified for civic uses (e.g. high schol, community college, etc.) and some 170 ac for open space, active parks and agriculture. Discretionary permits include: General Plan, Greenbelt Agreement, Sphere of Influence and City Urban Restriction Boundary amendments, Pre-zoning and Pre-annexation, etc..	<b>NOP</b>	09/22/2006
2006072114	Balboa Park Station Area Plan, San Francisco Planning Department Case No. 2004.1059E San Francisco Planning Department San Francisco--San Francisco The Project Area includes the area surrounding the Balboa Park Station and along Geneva, Ocean and San Jose Avenues. The proposed Balboa Park Station Area Plan (the proposed project) includes amendments to the San Francisco General Plan and specific Planning Code changes related to zoning districts and height and bulk controls in the Project Area. The proposed project would introduce a new zoning district, NC-T (Neighborhood Commercial Transit), into the Project Area that would potentially increase transit oriented mixed use developments. Improvements to the existing streetscape, transportation system/transit facilities, and open space, as well as new urban design policies, may result from implementation of the Area Plan. The Area Plan also includes proposals for mixed-use, transit oriented development in the Project Area. In particular, the Area Plan icludes proposals for the redevelopment of two specific parcels, the Phelan Loop Site and the Kragen Auto Parts Site. Implementation of the Area Plan would result in a net increase of about 1,780 new residential units, and about 104,680 net new gross square feet of commercial development in the Project Area by the year 2025. A net increase of about 90-200 jobs is also expected in the Project Area by the year 2025 as a result of implementation of the Area Plan.	<b>NOP</b>	08/28/2006
2006072118	Silva Estates (formerly Milner Estates) Manteca, City of Manteca--San Joaquin The proposed project includes the construction of the Silva Estates (formerly Milner Estates) subdivision. The project would subdivide approximately 59.9 acres into 217 single-family lots. The project would include the removal of two of the five existing single-family homes on the site. The project would also involve annexation, prezoning, a development agreement, and a tentative map for residential development.	<b>NOP</b>	08/28/2006

2006071135	Apple Valley County High School San Bernardino County, Superintendent of Schools --San Bernardino The Apple Valley County High School is proposed to provide special education to 156 students in grades six through twelve with special needs. The new school is planned as an eight-building (approximately 20,000 square feet) facility with recreational facilities, an on-site parking lot and other common amenities. The school is scheduled to open in September of 2008.	<b>Neg</b>	08/28/2006
2006072116	Shingle Tentative Map and CUP Yuba County --Yuba Tentative subdivision map to subdivide 20.55-acre parcel into one lot of 10.70 acres for single-family residential use and a remainder lot of 9.85 acres. Conditional Use Permit sought to allow some existing residences to remain on remainder lot.	<b>Neg</b>	08/28/2006
2006072117	Penitencia Creek Trail Reach 1 San Jose, City of San Jose--Santa Clara Master Plan for development of a 0.5-mile raised concrete path along the north side of Penitencia Creek Road, for pedestrian use. The path would vary from four- to six-feet in width. A six-foot wide path would extend from Noble Avenue to Dorel Drive, which would be reduced to four feet in width east of Dorel Drive. Regulatory signage and accessible ramp improvements at intersections are included.	<b>Neg</b>	08/28/2006
1993112027	River Islands at Lathrop Lathrop, City of Lathrop--San Joaquin River Islands at Lathrop is a proposed mixed-use residential/commercial development project on 4,905 acres on Stewart Tract and Paradise Cut. The project envisions construction of 11,000 residential units along with an employment center, town center, docks, and golf courses. Board action relevant to the project consists of approval of two permits. Permit 18018-1 authorizes the River Islands at Lathrop Project to reconstruct and place engineered fill on the landside portion of federal project levees regulated by the Board. Permit 18018-2 defines the boundaries of flood control easements on fill authorized by Permit 18018-1 and defines certain land uses compatible with those easements.	<b>NOD</b>

	washwater holding tank, and sodium hypochlorite storage and feed system. The project impact area, including staging and storage, is approximately 200 feet by 100 feet (less than half an acre). All construction activities will occur within this area and the booster station facility to the south. The facility will be enclosed by a block wall exterior and will incorporate sunshades to shield key pieces of equipment. Security lighting will be installed around the building, but will be shielded from adjacent properties and directed downward toward the building.		
2006062087	S&S Retail Center Oakley, City of Oakley--Contra Costa The project consists of a Conditional Use Permit and Development Plan to construct and operate a 19,416 square foot retail center including one drive-thru restaurant, a mini-market, car wash and a 12-pump (dual-sided) dispenser gas station including parking, lighting, and landscaping on a 1.59-acre parcel, at the southeast corner of Cypress Road and Main Street (Hwy. 4).	<b>NOD</b>	
2006062106	Installation of Water Treatment Plant & Improvement of Water Intakes Willow Creek Community Services District --Humboldt To bring the WCCSD water system into compliance with the State Surface Water Treatment regulations, the District proposes to install a new Water Filtration System to serve the public water system. There will be a 3,000 gallon surge tank and three 6,000 gallon pre-mixing chambers for pre-coagulation and chlorine disinfection. These tanks will also act as a contact chamber and surge tank for well start up. The tanks will have an open building with a covered roof. The back-wash will be sent to a 150,000 gallon holding tank and will be recycled back into the system. The settled back-wash will be sent to an evaporation pond.	<b>NOD</b>	
2006062140	Wastewater Reclamation Lockeford Community Services District --San Joaquin The proposed project consists of constructing new wastewater reclamation facilities on the 60-acre Bolea property and increases the depth of the 20-acre off-site storage pond by 3.5 feet. The reclamation expansion would use secondary disinfected wastewater to surface irrigate forage crops at the proposed reclamation site. The fields would be irrigated to meet agronomic demands of the planted forage crop. Application rates are designed for 2.5 inches per application, which would allow for sufficient infiltration of all applied effluent within a 24 hour period.	<b>NOD</b>

2005121169	Oak Glen/Wilson II Basins Yucaipa, City of Yucaipa--San Bernardino The proposed Oak Glen/Wilson II Basins would be located along Oak Glen Creek, east of Bryant Street in the City of Yucaipa. The proposed project would involve the construction of a series of three detention/desilting basins along the creek, an access road and parking area, overlook/rest areas, and hiking trails.	<b>EA</b>	08/30/2006
1999062020	Placer Vineyards Specific Plan Revised Draft EIR (PEIR T200540651) Placer County Planning Department The Placer Vineyards Specific Plan project is a mixed-use master planned community with residential, employment, commercial, open space, recreational and public/quasi-public land uses. The Plan provides for 14,132 homes in a range of housing types, styles, and densities. At Plan build out, projected to occur over a 20 to 30-year time frame, Placer Vineyards will have a population of approximately 33,000 people, 422.5 acres of employment centers, 140 acres of retail commercial centers and approximately 930 acres of new parks and open space.	<b>EIR</b>	09/13/2006
2004071075	PRC-3904.1 Ellwood Marine Terminal Lease Renewal California State Lands Commission Goleta--Santa Barbara The project is the renewal of a lease of state land for operation of the Ellwood Marine Terminal (EMT), a crude oil marine loading terminal and storage facility. Crude oil is first stored in two onshore tanks and then pumped into a pipeline for loading into a dedicated barge. The EMT has an average barge loading rate of 4,200 barrels (bbls) per hour with a maximum barge capacity of a total of 56,000 bbls. Typically, a dedicated barge is loaded two to three times per month with 55,000 bbls of crude oil per load. The oil is then transported to refineries in the Port of Los Angeles area. The offshore facilities consist of an irregular six-point mooring system located 2,600 feet from shore, two additional buoys, a 10-inch-diameter marine loading pipeline that extends from the beach to the mooring area, and 240-foot long rubber hose to the offshore end of the pipeline.	<b>EIR</b>	09/13/2006
2004091159	Tijuana River Valley Regional Park Trails and Habitat Enhancement Project San Diego County San Diego--San Diego The project proposes to create a formal designated multi-use recreational trail network. The trail system would include the installation of a semi-truss recreational trail bridge over the Tijuana River, the establishment of an Eastern trailhead staging area, and the installation of interpretative signage. The project also proposes wetland, riparian and habitat creation and restoration in the park.	<b>EIR</b>	09/13/2006
2005042123	Wal-Mart Expansion (UP-8-04) Redding, City of Redding--Shasta Proposed expansion of existing Wal-Mart store currently on this site. The expansion would include grocery sales. The store would expand from approximately 160,000 square feet (including the garden center) to approximately 244,000 square feet (including the garden center).	<b>EIR</b>	09/13/2006

2005102090	Dutch Slough Properties Oakley, City of Oakley--Contra Costa The proposed 303-acre Dutch Slough Properties project site consists of three agricultural landholdings located in the City of Oakley. These landholdings are commonly referred to as the Emerson Property (+/- 140 acres), Gilbert Property (+/- 120 acres), and Burroughs Property (+/- 43 acres). The project includes the development of approximately 1,350 dwelling units on +/- 303 acres. In addition to the residential lots, the project includes a potential school site, commercial development, trails, five parks, levees, two storm water detention ponds, as well as the infrastructure improvements necessary to accommodate the new development.	<b>EIR</b>	09/13/2006
2006012044	Adoption of Regulations Permitting Statewide Residential Use of Chlorinated Polyvinyl Chloride (CPVC) Plastic Plumbing Pipe without First Making a Finding Housing and Community Development, Department of --Alameda, Alpine, Amador, Butte, Calaveras, Colusa, ... Evaluate the potential of significant adverse environmental effects from the adoption of regulations permitting statewide residential use of chlorinated polyvinyl chloride (CPVC) plumbing pipe without first making a finding of potential premature metallic pipe failure due to local water or soil conditions.	<b>EIR</b>	09/14/2006
2006051087	Harvard Avenue Trunk Sewer Diversion Project Irvine Ranch Water District Irvine--Orange The HATS Diversion Project would allow IRWD to optimize its use of the Michelson Water Reclamation Plant (MWRP) by diverting HATS flows which are currently flowing to Orange County Sanitation District (OCSD) for treatment, to the MWRP.	<b>EIR</b>	09/13/2006
2006011020	San Luis Obispo County Regional Airport Master Plan Update San Luis Obispo County --San Luis Obispo The project consists of the adoption of the Master Plan Update for San Luis Obispo County Regional Airport. Project components in the Master Plan Update include airfield, landside, and ancillary improvements at the Airport. The primary component of the project is the extension of Runway 11 by 800 feet.	<b>FIN</b>	
2006062095	Mill Creek Acquisition Forest Ecosystem Restoration & Protection Project Parks and Recreation, Department of Crescent City--Del Norte DPR proposes to make the improvements described herein to the Mill Creek Acquisition (MCA) watersheds located within Del Norte Coast Redwoods State Park. The purpose of these improvements is to help meet the primary goal of the acquisition, which is the restoration of late-successional forest characteristics by removing the underlying causes of poor forest health associated with high tree densities established by the former management system.	<b>FIN</b>	
2006071136	Howard Carden School Mitigated Negative Declaration Carpinteria, City of Carpinteria--Santa Barbara Request for a Conditional Use Permit to allow the Howard Carden School to remain located on the Girls Inc. property. The private school has been operating on the site for the past five years under a Temporary Use Permit. A modular building was added several years ago to provide three classrooms on the site.	<b>MND</b>	08/29/2006

2004011048	Robert A. Perdue Water Treatment Plant Master Plan for Future Plant Facilities (SCH# 2004011048) Sweetwater Authority --San Diego The project is a long-term development plan for modifications to the water treatment facilities required to comply with foreseeable water quality regulations and capacity requirements.	<b>NOD</b>	
2004111057	College Park Master Plan Draft EIR Oxnard, City of Oxnard--Ventura The project involves development and approval of a Master Plan for the orderly development of an existing mostly undeveloped 75-acre regional park in southeastern Oxnard. Project development would occur in phases as funding becomes available for improvements. The project would generally involve the development of a themed sports park with restaurant, soccer fields, basketball courts, restrooms, biking and walking trails, picnic grounds, playground equipment, an enhanced wetland area, dog parks, parking and circulation. The EIR also focused on future potential development of a community center, gymnasium, and cultural center if funding is identified for these improvements. The primary objective of the proposed project is to enhance the areas of the park that surround an existing highly utilized skate park and group picnic facility to provide additional recreational opportunities for the citizens of Oxnard.	<b>NOD</b>	
2005081140	South Mission Valley Trunk Sewer San Diego, City of --San Diego Council approval of Capital Improvement Project No. 40931.0 for the replacement and new construction of approximately 21,182 lineal feet (LF) and the abandonment of 12,830 LF of existing trunk sewers and sewer main. Scope of work also includes associated improvements such as laterals, manholes, and related improvements within portions of Taylor Street, under I-8, Hotel Circle Place, Hotel Circle North, Hotel Circle South, under I-805, Mission Center Drive, I-5, Camino de la Reina, Camino del Rio North, Camino del Arroyo, and under SR-15. The project is located within the Mission Valley Community planning area of the City and County of San Diego, CA.	<b>NOD</b>	
2005092072	Randall Sand and Gravel Conditional Use / Surface Mining Permit / Reclamation Plan / Financial Assurances Humboldt County Community Development Services --Humboldt The project proposes the removal of flood-washed alluvial material for commercial purposes on the South Fork Eel River, in Humboldt County.	<b>NOD</b>	
2006021149	Central Elementary School Expansion Escondido Union School District Escondido--San Diego The proposed project includes site acquisition (approximately 0.32 acre), demolition or relocation of four existing structures and reconstruction to expand the playfields and open space for the existing Central Elementary School. No building structures are proposed for the site, and Central Elementary School's student capacity would not be increased with the implementation of the project.	<b>NOD</b>

<b><u>Documents Received on Monday, July 31, 2006</u></b>			
	Fish and Game (HQ) Environmental Services -- The project proposes the installation of ten, complex LWD instream structures along 1,650 feet of Sultan Creek for improvement of spawning and rearing habitat for salmonids.		
2006052041	Department of Fish & Game - Year 2006 - Fisheries Restoration Grant Program Project Fish and Game (HQ) Environmental Services --Humboldt The project proposes the removal of an existing culvert and placement of a diversion culvert in the middle of the channel of Warden Creek, Humboldt County.	<b>NOD</b>	
2006062095	Mill Creek Acquisition Forest Ecosystem Restoration & Protection Project Parks and Recreation, Department of Crescent City--Del Norte Young (average stand age < 25 years), unnaturally dense forest plantations would be thinned (using chainsaws) to (a) maintain the growth of desirable trees and (b) adjust stand structure and species composition to conditions that resemble historical, old-growth forests for the area. Thinning prescriptions would be tailored to meet both interim and long-term objectives related to enhancing wildlife habitat, natural forest processes and aesthetic values. Thinning would occur on a maximum of 1,418 ha (3,503 ac) and would be coordinated with ongoing road-decommissioning projects. Retained trees would be spaced using a variety of patterns (i.e., random, dispersed, aggregated) and target densities (i.e. 30-80 trees per hectare [75-200 trees per acre]) reflecting specific project objectives and future access. Prescriptions would be modified when necessary to protect sensitive resources such as rare plants, wetland habitats and mass wasting areas. Riparian prescriptions have been designed to maintain or enhance desired cold water environments for the benefit of fish and wildlife. Felled trees would be removed within at least 15 m (50 ft.) of drivable roads (that are not to be removed) to mitigate the short-term fire risk.	<b>NOD</b>

2006078295	8110 Junipero Street Boundary Line Adjustment Sacramento County Dept. of Environmental Review Sacramento--Sacramento The proposed project consists of a Boundary Line Adjustment to reconfigure the lot lines between two parcels in the M-1(F) zone to change the parcels from a north/south orientation to an east/west orientation.	<b>NOE</b>	
2006078296	Wulf-Alvarez Tentative Parcel Map and Lot Size Exception Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Tentative Parcel Map to divide 40.8 +/- gross acres into two parcels in the AG-20 zone. The project also includes an Exception from the minimum 20-acre parcel size requirement of the AG-20 zone for one of the two proposed parcels. Parcels will be 17.1 and 23.7 acres in size. Note: The proposed large lot Tentative Parcel Map is consistent with the adopted North Vineyard Station Specific Plan and will allow the property owners to independently develop Parcels 1 and 2 for future development. No development is currently proposed.	<b>NOE</b>	
2006078297	Johnson Residential Accessory Dwelling Use Permit Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to allow a residential accessory dwelling on a 3 +/- acre parcel zoned AR-2.	<b>NOE</b>	
2006078298	Janson Residential Accessory Dwelling Use Permit Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to allow a residential accessory dwelling (manufactured home) on a 1.46 +/- acre parcel zoned AR-2 (F).	<b>NOE</b>	
2006078299	KMS Happy Lane Park Tentative Subdivision Map Sacramento County Dept. of Environmental Review Rancho Cordova--Sacramento The proposed project consists of a Tentative Subdivision Map to subdivide 14.81 +/- acres into 15 industrial lots in the M-1 zone. Note: The proposed land division will not result in any development occurring on the property that is not otherwise permitted in the M-1 zone.	<b>NOE</b>	
2006078300	5610 West 6th Street Lot Size Exception Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of an Exception to lot size to allow the existing parcel to be no more than 10% less in area than the minimum 2.0 gross acres required for the AR-2 zone. The subject lot is 1.86 +/- gross acres in size.	<b>NOE</b>

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, July 31, 2006</u></b>			
2006078301	Claire's Montessori Daycare Use Permit Sacramento County Dept. of Environmental Review --Sacramento A Use Permit to allow the expansion of an existing preschool from 36 to 50 students. NOTE: The site has been operated as a Montessori daycare facility, with an enrollment of approximately 60 children, for more than 3 years. The previous Use Permit (Control No. 90-UPZ-0396) limited enrollment to 36 children; however, the IS/ND prepared for that project analyzed a maximum enrollment of 64 students, as originally requested.	<b>NOE</b>	
2006078302	9470/9488 Vallejo Drive Boundary Line Adjustment Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Boundary Line Adjustment between two adjacent parcels in the RD-2 zone.	<b>NOE</b>	
2006078303	Antelope Manor, Bradman, and Sheldon Hills Unit No. 3 Annexation into CFD No. 2005-1 Sacramento County Dept. of Environmental Review --Sacramento The project consists of a single annexation process of the above new subdivisions to CFD, to provide funding for police protection services.	<b>NOE</b>	
2006078304	Weinreich Boundary Line Adjustment Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Boundary Line Adjustment between two parcels in the RD-5 zone to enlarge a currently unbuildable parcel to a size that will allow for development.	<b>NOE</b>	
2006078305	9120 Greenback Lane Residential Accessory Dwelling and Accessory Structures Use Permit and Development Plan Review Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to allow a 1,016 +/- square foot residential accessory dwelling and four accessory structures that total 3,200 +/- square feet in the SPA (RD-4 zone). Note: The subject property has a split underlying zoning of LC and RD-4 within the Greenback Lane Special Planning Area. All proposed structures will be on the RD-4 portion of the property. The project also includes a Development Plan Review pursuant to Section 506-24 of the Greenback Lane Special Planning Area Ordinance.	<b>NOE</b>	
2006078306	Sierra Sunrise Apartments Development Plan Review, Exception, Special Review of Parking (Cross Access) and Affordable Housing Plan Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of the following: 1. A Development Plan Review to allow construction of a 20-unit senior apartment complex on 0.99 +/- acre in the RD-40 zone. 2. An Exception to eliminate the required 5-foot wide perimeter planter, and screen trees 30 feet on-center, along the east interior property line. 3. A Special Review of Parking to allow shared/cross access parking. 4. A deviation from the fencing requirements pursuant to Section 301-60 (d) and 301-64 of the Zoning Code to eliminate the required perimeter solid wood fence or masonry wall along the east interior property line.	<b>NOE</b>

	and envelope holder along the side of the road before the bridge. Excavation consists of digging a hole 2 feet wide by 3 feet deep through the existing road base.		
2006078322	Mayten Tree Root Removal Parks and Recreation, Department of --Monterey Excavate and cut tree roots that have uplifted adjacent pathways creating a safety hazard from Mayten tree at the Stevenson House within Monterey State Historic Park to prevent damage to the building foundation. Work will excavate and cut tree roots where they intersect pathway on east side of building. A plastic root barrier will be placed in the trench to prevent further encroachment of roots under the path and building.	<b>NOE</b>	
2006078323	Western States Trail Repair, Auburn State Recreation Area Parks and Recreation, Department of --El Dorado Repair and reconstruct approximately 12,300 feet of existing, severely entrenched Western States Trail between the Mountain Quarry Railroad Bridge and the Olmstead Loop Trail within Auburn State Recreation Area. The work will include clearing vegetation along the existing trail corridor, removing any berm built up along the trail and reshaping the trail tread with the proper outslope, and constructing drain dips as needed to allow proper drainage. All work will be completed according to the standards and guidelines in the Department's Trails Handbook. Areas with sensitive cultural resources will be flagged and avoided. The work will either occur outside the nesting bird season or if work needs to occur during nesting season, a qualified environmental scientist will survey area for any potential nest sites and these areas will be flagged and avoided.	<b>NOE</b>	
2006078324	Bear Valley Dam, No. 2015 Water Resources, Department of, Division of Dams Big Bear Lake--San Bernardino Strengthening the upper arches in Bays 5, 6, and 8 to stop water leakage, Big Bear Municipal Water District.	<b>NOE</b>	
2006078325	Right of Entry Permit to Marin Municipal Water District Parks and Recreation, Department of --Marin Issue a Right of Entry Permit to the Marin Municipal Water District (MMWD) for use of a staging area needed for a project within the MMWD right-of-way for the Nicasio Transmission Line within Samuel P. Taylor State Park. The line was damaged by a landslide and is to be repair under emergency CEQA guidelines. The staging area will be used for equipment and temporary spoils storage.	<b>NOE</b>	
2006078326	Arundo and Pampas Grass Herbicide Treatment, Auburn and Folsom Lake State Recreation Areas Parks and Recreation, Department of --Placer, El Dorado Treat infestations of the Arundo donax (arundo) and pampas grass with a foliar herbicide application at locations along the North Fork of the American River between the Iowa Hill Road crossing in Auburn State Recreation Area and Rattlesnake Bar in Folsom Lake State Recreation Area. This includes infestations along the shoreline of Lake Clementine. A total of about 43 patches of arundo and a dozen patches of pampas grass spread along the North Fork will be treated. Arundo and pampas grass are invasive exotic plant species which harm native	<b>NOE</b>

<b><u>Documents Received on Monday, July 31, 2006</u></b>			
	plants and habitat and the purpose of the project is to control the spread of these species and eradicate known infestations. The treatment method will be a foliar application of aquatically approved herbicides with active ingredients which include glyphosate and imazapyr. Herbicide recommendations will be obtained from a Pest Control Advisor. All spraying will be conducted under the direction of a certified qualified applicator. The intent is to prevent herbicide spray from entering the river or other water bodies and specific effort will be made to avoid this occurrence. However, because the treatment areas are adjacent to surface water sources, aquatically approved herbicides are being used. Spraying will occur only when conditions will permit avoiding any drift or overspray. Treatments will be conducted in the summer/fall of 2006 and 2007. Follow-up maintenance treatments may occur in subsequent years. All required records on herbicide use will be filed with Placer and El Dorado Counties.		
2006078327	Dead Lake Boat Launch, Parking and Restroom Improvements Parks and Recreation, Department of --Del Norte Pave and re-stripe existing gravel access road and parking area, with minor re-grading to control runoff, at Dead Lake in Tolow Dunes State Park. Delineate accessible parking space(s), compliant with the Americans with Disabilities Act (ADA). At the boat launch ramp, construct a cast-in-place 20-foot wide concrete boat ramp apron and install a pre-cast concrete boat ramp and associated structures on 8 inches of crushed rock base. Install a pile-guided boarding float and underwater support piling. Install a vehicle gate at the park boundary adjacent Riverside Road, to restrict access to daylight hours. Install a destination sign and a regulatory sign near the gate to inform visitors of facility location and use restrictions. Install one unisex ADA-compliant single unit vault toilet, accessible from the parking lot and outside wetland areas.	NOE	
2006078328	Owens Valley Native Fishes Sanctuary Dam Removal Fish & Game #7 Bishop--Mono The project consists of a controlled (gradual, stepwise) breach of the levee, removal of the existing outlet pipe, exposure of the original channel through partial removal of fill, and hauling away from the removed fill. No fill will be replaced in the wetland. The project will be conducted while the impounded waters are at full capacity, as beavers have plugged the outlet pipe. Aquatic organisms in the mud-bottomed channel downstream will not be harmed by the temporary, limited release of mud during the breaching. Removal of the structure will prevent chronic downstream channel aggradation and will restore currently inundated spring vents to their natural condition, remove the threat of inundation from a population of threatened Fish Slough Milk-vetch, and improve biotic integrity of the site.	NOE	
2006078329	Chapman RV Storage Stanton, City of Stanton--Orange A Development Agreement for the expansion of an existing RV storage and parking facility (located in the City of Garden Grove) into a portion of Union Pacific Railroad property by adding approximately 90 spaces for property located north of Chapman Avenue, 150 feet west of Santa Rosalia Street in the B-1 (Buffer) zone.	NOE
